10.1.3 COMMODITY ROUTE FUNDING 2024/2025 APPLICATION

RESPONSIBLE OFFICER: Linda Gray – Chief Executive Officer
REPORT AUTHOR: Linda Gray – Chief Executive Officer
FILE REFERENCE: RO102
APPLICANT: N/A
DATE OF REPORT: 11 April 2023
ATTACHMENTS: Nil

Purpose

The purpose of this report is for the Council to consider the support of an application for Commodity Route Funding for 2024/2025 for Yonka Road, in conjunction with the proposed development of the intersection of Yonka Road with Albany Highway in 2024/25 by Mainroads Western Australia.

Background

Originally, Yonka Road was the access road to the farm known as Yonka Farm. Yonka Road was then opened as a thoroughfare in 1973. This impacted on the farm because of noise and dust, as well as on the land use, which was split by the road.

A metro count from the period Wednesday, 27 November 2019 to Thursday, 19 December 2019 counted 18 road trains per day. Increased traffic is due to the establishment of a piggery at the end of Yonka Road, although RAV4 conditions are in place i.e. travel at no more than 40 kilometres per hour, this is hard to enforce this without constant monitoring.

Officer's Comment

Mainroads Western Australia have been aware for at least five years of the problem of roadtrains entering and exiting Yonka Road from Albany Highway, and have proposed that they will develop the intersection dependent upon funding in the 2024/25 financial year. Their work will include the sealing of the intersection. It is proposed that the Shire of Cranbrook submit a funding application to the Commodity Route Funding for 2024/25 for a kilometre of sealing, and with the agreement of Mainroads, have this work done by them as part of their 2024/25 upgrade. This will provide efficiencies to the system as they will have machinery on hand as well as contractors, and whilst the grant funding will have been auspiced through the Shire, the project will be done by Mainroads.

The extra length of sealed road will terminate on the east side of the current Yonka homestead, and will alleviate the problem of noise, dust, and the health issues, it will also allow traffic to move more effectively.

Statutory Environment

There is no specific legislation applicable to this report.

Policy Applicable – Implications

There is no Council policy applicable to this report.

Financial Implications

Commodity funding, if successful, is based on a 1/3 contribution from the Shire of Cranbrook. A kilometre of sealing is estimated to cost between \$50,000 - \$85,000, at a cost of \$17,000 - \$28,000. This will be offset by lower maintenance costs as previous attempts to alleviate dust through polymer products have been ineffective.

Risk Implications

The risks associated with matters in this report are:

- Inadequate Environmental Management
- Inadequate Engagement Practices

The **impacts** of the risk are: Reputational, Natural Environment

The **consequences** of these risks are considered to be: Moderate

The **likelihood** is: Possible

Hence the **risk rating** for this report is: Moderate

Risk mitigation is to ensure that costs are minimal whilst seeking a practical solution to a negative health and social environment through an efficient and effective partnership with other stakeholders such as Mainroads Western Australia.

OFFICER'S RECOMMENDATION

That Council approve the application to the Commodity Route Funding for up to one kilometre of sealed road at Yonka Road in 2024/25; the work must be undertaken in conjunction with the improvements to the Yonka Road/Albany Highway intersection by Mainroads Western Australia in the same financial year.

As part of the Frankland River Playground project, the disposal of existing portable skate park equipment was placed out for disposal by Expression of Interest (EOI). The EOI process ran from 10 March 2023 to 31 March 2023

Cranbrook Districts Motorcycle Club Inc	\$400.00

To have the portable skate park equipment removed, the cost estimate for unskilled labour, travel and plant hire/equipment would equate to an amount of \$1800.00. An estimated total cost for the disposal being \$2200.00.

Statutory Environment

 - (i) describing the property concerned;
 - (ii) giving details of the proposed disposition; and
 - (iii) inviting submissions to be made to the local government before a date to be specified in the notice, being a date not less than 2 weeks after the notice is first given;
- and
- (b) it considers any submissions made to it before the date specified in the notice and, if its decision is made by the council or a committee, the decision and the reasons for it are recorded in the minutes of the meeting at which the decision was made.
- (4) The details of a proposed disposition that are required by subsection (3)(a)(ii) include-
- (a) the names of all other parties concerned;
 - (b) the consideration to be received by the local government for the disposition; and
 - (c) the market value of the disposition as ascertained by a valuation carried out not more than 6 months before the proposed disposition.”

Policy Applicable – Implications

Council Policy 4.14 Asset Disposal states that Council is committed to ensuring an open, fair, transparent and accountable process in the disposal of Council’s surplus assets, whilst obtaining best value for money and avoiding any conflicts of interest, whether real or perceived.

Financial Implications

The proceeds from the sale of this portable skate park equipment would be transferred to the Other Recreation & Sport Operating Revenue Account.

Risk Implications

The risks associated with matters in this report are:

- Business and Community Disruption
- Errors, Omissions and Delays
- Inadequate Document Management Processes
- Inadequate Engagement Practices
- Inadequate Safety and Security Practices
- Inadequate Project/Change Management
- Inadequate Supplier/Contract Management

The **impact** of the risk is Financial, Service Interruption, Non-Compliance, Reputational, Property.

The **consequences** of these risks are considered to be Moderate

The **likelihood** is Unlikely

Hence the **risk rating** for this item is Medium

10.2.2	PLANNING APPLICATION – PROPOSED SHOWROOM (SHOP), OFFICE AND WAREHOUSE - LOT 2 (NO 6) SALT RIVER ROAD, LOT 9 (No 82) & LOT 2 (No 84) CLIMIE STREET, CRANBROOK
RESPONSIBLE OFFICER:	Linda Gray – Chief Executive Officer
REPORT AUTHOR:	Liz Bushby – Consultant Planner (Town Planning Innovations)
FILE REFERENCE:	A147 & A107
APPLICANT:	Commercial Design Management
DATE OF REPORT:	7 April 2023
ATTACHMENTS:	Site Plans & Elevations

Purpose

The purpose of this report is for Council to consider a development application for a new building proposed for Elders on Lot 2 (No 6) Salt River Road, Lot 9 (No 82) Climie Street and Lot 2 (No 84) Climie Street in Cranbrook.

The development is for a new Elders Rural Services outlet to replace their current premises on the corner of Salt River Rd and Climie Street, Cranbrook.

Background

There is an existing shed and hardstand area on Lot 2 (No 6) Salt River Road which is proposed to be retained. Lot 9 (No 82) Climie Street and Lot 2 (No 84) Climie Street are vacant.

There is a 100mm water pipe along the south lot boundaries, which is protected by an easement registered on the Certificate of Title(s) of the lots.

Officer’s Comment

• **Description of Proposal**

An application has been lodged for a new building to be occupied by Elders who display, store and sell a wide range of agricultural related products.

The proposed development will incorporate:

- A main entry and carpark accessed from Climie Street;
- A combined showroom and office with a gross floor area of 400m²;
- A main warehouse with a floor area of 492m², and attached canopy that can be used for loading;
- A smaller rear warehouse with a gross floor area of 195m².

A site plan and elevations are included as Attachment 1.

• **Zoning and Land use Permissibility**

The lots are zoned Town Centre under the Shire of Cranbrook Town Planning Scheme No 4 (the Scheme).

Part of the planning assessment for any application involves determining which land use definitions from the Scheme ‘best fits’ the proposal.

Table 1 in the Shires Scheme lists land uses in a table format with different symbols listed under different zones. The symbols in Table 1 outline the permissibility of land uses in different zones.

A summary of the proposed land uses is included in the table below:

Proposed Use	Officer Comment
Warehouse	<p>A warehouse is defined as ‘means premises used to store or display goods and may include sale by wholesale. ‘</p> <p>A warehouse is defined in the Scheme, but is not listed under Table 1.</p> <p>Where a land use is not listed under Table 1, Council has discretion to consider the proposal as a ‘use not listed’. Any ‘use not listed’ is considered in accordance with the objectives of the relevant zone.</p>
Office	<p>An office is defined as ‘means premises used for administration, clerical, technical, professional or other like business activities’.</p> <p>An office is permitted in the Town Centre zone. Even if an office wasn’t permitted, it could be considered as forming part of, or being ancillary to, the main showroom use.</p>
<p>Showroom – Although the proposed building includes a ‘showroom’, it is essentially used for retail sales of a wide range of goods including and not limited to agricultural chemicals, herbicides and pesticides, animal</p>	<p>It is recommended that the showroom component be processed as a shop and a showroom, as only some of the goods are bulky in nature.</p> <p>This would provide Elders with the maximum flexibility as to the nature, size and form of products sold in the ‘showroom’ building.</p>

<p>health products, drenches, stock licks, fertilisers & fencing products.</p>	<p>A shop is defined as <i>'means premises used to sell goods by retail, hire goods, or provide services of a personal nature (including a hairdresser or beauty therapist) but does not include a showroom or fast food outlet'</i>.</p> <p>A shop is listed as a 'D' use in Table 1, which means that Council has discretion to approve a shop in the Town Centre zone.</p> <p>A showroom is defined as <i>'means premises used to display, sell by wholesale or retail, or hire, automotive parts and accessories, camping equipment, electrical light fittings, equestrian supplies, floor coverings, furnishings, furniture, household appliances, party supplies, swimming pools or goods of a bulky nature'</i></p> <p>A showroom is defined in the Scheme, but is not listed under Table 1.</p> <p>Where a land use is not listed under Table 1, Council has discretion to consider the proposal as a 'use not listed'. Any 'use not listed' is considered in accordance with the objectives of the relevant zone.</p>
--	---

Council has three options in dealing with the showroom and warehouse as a 'Use Not Listed' under Clause 4.4.2 of the Scheme:

OPTION 1 Determine that the showroom and warehouse uses are consistent with the objectives of the particular (Town Centre) zone and are therefore permitted.

Comment: TPI does not recommend Option 1, as it will set a precedent for all similar land uses to be treated as a permitted use in the Town Centre zone. This is undesirable as there may be locations or circumstances where the Shire Council does not support these land uses.

OPTION 2 Determine that the proposed showroom and warehouse uses may be consistent with the objectives of the Town Centre zone and thereafter follow the advertising procedures of Clause 64 in considering an application for development approval.

Comment: TPI recommends Council pursue Option 2.

It should be noted that the Shire Administration has already commenced formal advertising of the application for public comment.

OPTION 3 Determine that the showroom and warehouse uses are not consistent with the objectives of the Town Centre zone and are therefore not permitted.

Comment: Option 3 is not recommended. The application has significant merit, and the uses are compatible with the objectives for the Town Centre zone.

- **Setbacks**

The site requirements for the Town Centre zone are to the discretion of Council. The proposed setbacks and general layout of the development is supported by TPI.

- **Truck Movements**

The main entry for trucks and cars is proposed from Climie Street. Heavier vehicles will exit via the existing yard on Lot 2 and depart via Salt River Road.

The applicant has shown truck movements on the site plan submitted, which is supported by TPI.

- **Car Parking**

A car parking area is proposed in front of the showroom building adjacent to Climie Street. Eleven car parking bays are proposed, six of which will cater for employees.

10.2.3 WRITE-OFF OF NON-FINANCIAL ASSETS

RESPONSIBLE OFFICER:	Diana Marsh – Manager of Finance and Administration
REPORT AUTHOR:	Diana Marsh – Manager of Finance and Administration
FILE REFERENCE:	AD9
APPLICANT:	N/A
DATE OF REPORT:	3 April 2023
ATTACHMENTS:	Assets to be Disposed 30 June 2023

Purpose

The purpose of this report is for the Council to consider the write-off of several low value non-financial assets as at 30 June 2023.

Background

The *Local Government (Financial Management) Regulations 1996*, regulation 17A requires local governments to hold all non-financial assets with a value of \$5000 or more at the time of acquisition at fair value in accordance with Australian Accounting Standards with a period of not more than 5 years between revaluations. For this reason, the Shire of Cranbrook is undertaking a revaluation of a number of its asset classes as at 30 June 2023.

In preparation for the revaluation, the asset register is being reviewed and it has been identified that a significant number of assets in the Other Infrastructure class of assets are either of low value or are nearing the end of their useful life and have very low written down values. In this situation, it is important to consider the cost versus the benefit of revaluing these assets.

Officer's Comment

This write off of assets is for book keeping purposes and the assets identified will still be retained by the Shire.

Council Policy 4.3 Finance – Capitalisation and Depreciation of Non-Current Assets specifies that non-financial assets valued at \$5,000 at the time of acquisition will be capitalised but is silent on a revaluation threshold. While the revaluation of non-financial assets provides assurance as to the existence and condition of the shire's assets and is a very useful tool in its asset management processes, it does come with substantial financial cost to the Shire. It is the officer's recommendation that a minimum revaluation threshold of \$5,000 be added to Council Policy 4.3 as part of the Policy Manual Review in item 10.2.4 of this agenda.

During the process of reviewing assets in the Other Infrastructure class it was found many low value assets have been capitalised in groups or alongside assets of greater value, disguising the overall number of Other Infrastructure assets quoted on for the revaluation. Over 140 assets were identified as having a written down value (WDV) of less than \$5,000. Over 100 of those assets have a WDV of less than \$2,500. If these items remain on our asset register the valuers will individually assess and value them which will result in increasing the cost of the revaluation significantly, regardless of how low their value might be. These assets will be recorded these assets separately on the Shire's minor assets register once removed from the asset register.

A list of the assets identified for written-off, along with their approximate WDV at 30 June 2023 is attached for Council's consideration.

Statutory Environment

Regulation 17A of the Local Government (Financial Management) Regulations 1996, sections (2)-(5) states that:

- (2) A local government must show in each financial report for a financial year ending on or after 30 June 2020 —
 - (a) the fair value of all of the non-financial assets of the local government that are —
 - (i) land buildings that are classified as property, plant and equipment; or
 - (ii) investment properties; or
 - (iii) infrastructure; or
 - (iv) vested improvements that the local government controls; and
- (4) A local government must revalue a non-financial asset of the local government referred to in subregulation (2)(a) —
 - (a) whenever the local government is of the opinion that the fair value of the asset is likely to be materially different from its carrying amount; and
 - (b) in any event, within a period of no more than 5 years after the day on which the asset was last valued or revalued.
- (5) A non-financial asset is to be excluded from the assets of a local government if the fair value of the asset as at the date of acquisition by the local government is under \$5 000.

Policy Applicable – Implications

Council Policy 4.3 Finance – Capitalisation and Depreciation of Non-Current Assets, states that:

Capitalisation of Assets

Assets purchased or constructed to the value of \$5,000 or greater are to be capitalised, placed on the asset register, and depreciated over the useful life as determined by this policy for the relevant class of asset.

Any assets with a value under \$5,000, except for land, are to be expensed in the year of purchase and placed on the minor assets register.

Financial Implications

The inclusion of low value assets in the revaluation may significantly increase the cost of the revaluation due to the large number held. There is no budget available for this increase currently.

Risk Implications

The risks associated with matters in this report are:

- Errors, Omissions and Delays
- Failure to fulfil Statutory, Regulatory or Compliance Requirements
- Inadequate Document Management Processes
- Inadequate Asset Sustainability Practices

The **impacts** of the risk are: Financial, Non-Compliance, Property

The **consequences** of these risks are considered to be: Minor

The **likelihood** is: Possible

Hence the **risk rating** for this report is: Medium

Risk mitigation includes ensuring assets are recorded on either the Asset Register or the Minor Assets Register as applicable.

Strategic Community Plan Reference

The 2021-2031 Shire of Cranbrook, Strategic Community Plan states that:

Key Pillar: Connect

Outcome 16 – High Performing Shire: An accountable and respected Shire, investing in its people and structures.

Deliverable 16.1: A Shire and supporting entities are well-governed with delineated roles and accountabilities.

10.2.5 CORPORATE BUSINESS PLAN REVIEW

RESPONSIBLE OFFICER: Linda Gray, Chief Executive Officer
REPORT AUTHOR: Linda Gray, Chief Executive Officer
FILE REFERENCE: AD3
APPLICANT: N/A
DATE OF REPORT: 12 April 2023
ATTACHMENTS: Revised Corporate Business Plan

Purpose

The purpose of this report is for the Council to consider endorsing the proposed changes resulting from the review of the Corporate Business Plan.

Background

In accordance with regulation 19DA of the Local Government (Administration) Regulations 1996, “A local government is to review the current corporate business plan for its district every year” and “A local government may modify a corporate business plan, including extending the period of the plan is made in respect of and modifying the plan if required because of modification of the local government’s strategic community plan”.

The Shire of Cranbrook has conducted a review of the Corporate Business Plan (CBP) and made changes to deliverables and amendments to the content of the document, keeping in mind that the CBP is an internal business planning tool that translates Council priorities into operations within the resources available. The plan highlights the services, operations, projects and initiatives a local government will deliver within a defined period. It is the basis of the annual budget planning and establishes the key performance indicators for the Chief Executive Officer’s performance review.

Officer’s Comment

The review of the CBP was minor in scope but was intended to capture the changes in circumstance or delays that have occurred since the pandemic. It has also been noted that the CBP is intended to be a practical document that gives direction to the allocation of resources, and that the current Shire of Cranbrook’s CBP tends to be aspirational in nature. Measurements against deliverables such as the example listed below, tends to be difficult to quantify:

Outcome	Deliverable	Funding	Completed by	Measurement
Community	A culture-enhancement program where all community members are proud of living in and around the region	Existing	June 2025	Annual increase in ‘proud’ measurement for community members

Some changes have been made to the current CBP to better reflect the importance of the document as a planning tool.

Under Work –

The following Deliverables and their Measurement are deferred due to current external environment:

- 5. Business Engagement – 5.2 A data-base of extra or shared workers is in reach.
- 7. Enabled Economy – 7.3 A small to medium enterprise incentive program partnered with the local shire.
- 8. Business Attraction – 8.1 Additional business or micro-production has commenced or expanded in the shire, and 8.2 Created a social-enterprise activity.

Under Connect –

There seems to be a regional focus not a Shire of Cranbrook focus, which would mean a lack of alignment with the availability of resources. For example, we have -

15. Proactive people A community which capitalises on its youthful intellect and stretches interactions wider than the community residing in the shire.	15.2 A virtual community and region-wide alumni for sustained connections, engagement, and growth	Existing	June 2022	Alumni named, purpose formed by June 2022. 1000 person database formed by June 2025.
---	---	----------	-----------	--

These Community Outcomes have been left in place, but will need to be reviewed in detail as they do not align with the Community Strategic Plan with the exception of 16. High-performing Local Shire – An accountable and respected Local Shire, investing in its people and structures and its Deliverables.

Statutory Environment

DLGSC IPR Framework and Guidelines.

Policy Applicable – Implications

10.2.6 ANNUAL REVIEW OF DELEGATIONS

RESPONSIBLE OFFICER: Linda Gray – Chief Executive Officer
REPORT AUTHOR: Linda Gray – Chief Executive Officer
FILE REFERENCE: GO20
DATE OF REPORT: 24 March 2023
ATTACHMENTS: Delegations Register

Purpose

The purpose of this report is for the Council to consider the adoption of the revised register of delegations.

Background

Section 5.42 of the Local Government Act 1995 (the Act) provides that a Council may delegate to the Chief Executive Officer the exercise of any of its powers or the discharge of any of its duties under the Act, other than those referred to in section 5.43.

Section 5.46(2) of the Act requires the local government to review its delegations at least once every financial year.

The purpose of this review is to consider the operational effectiveness of the current delegations, whether they remain relevant and appropriate, whether legislative amendments or organisational changes necessitate any revisions to the text and whether any new delegations are required.

Officer's Comment

There are a range of powers and duties delegated to the CEO in accordance with the powers provided by Sections 5.42(1)(a) and (b) of the Act. The Act also requires that the Council's delegations to the CEO be reviewed each year.

The delegations were reviewed by relevant officers in terms of the appropriateness of the existing delegations and if there was a need for any additional delegations. As a result of this review, it was determined that there was some minor text changes requiring updating due to a change in position titles. More importantly, there was a need to revoke Delegation 1.11 Contribution to Site Works as the Policy 8.0 Site Works supporting this initiative has been deleted due to budget constraints. One new delegation had been approved by absolute majority on 15 March 2023 at the Ordinary Council meeting for the CEO to grant an exemption for planning approval for temporary works (not exceeding 12 months).

It should be noted that the delegations were last reviewed by Council in the 21/22 financial year, and this review falls into the 22/23 financial year. At least once every financial year, delegations made under s5.46 of the *Local Government Act 1995* are to be reviewed by the delegator.

Deleted Delegations:

1.11 Contribution to Site Works

No longer needed.

Amended Delegations:

1.15 Consumption of Alcohol – Council Property

Delete the CEO Sub Delegation – delegation remains with the Chief Executive Officer.

1.22 Building Delegation – Approval of Plans

Unable to sub-delegate as sub delegation under the Building Act 2011 cannot be delegated to the private sector.

New Delegations previously approved:

Delegation 1.33 Grant an Exemption on Planning Approval for Temporary Works (not exceeding 12 months)

This delegation was approved at the Ordinary Council meeting held on 15 February 2023 and is now included in the Delegation Register.

Statutory Environment

Section 5.42 of the Act provides that Council may delegate powers to the CEO except those referred to in section 5.43 of the Act.

Section 5.46(2) of the Act requires all delegations to be reviewed at least once each financial year.

Policy Applicable – Implications

There is no Council policy applicable to this report.

Financial Implications

There are no financial implications for this report.

Risk Implications

Having clear and appropriate delegations from Council to the CEO and from the CEO to staff is an important part of the overall governance framework. It allows the Shire to conduct business in an efficient manner and provides overall accountability for the decision making processes. Risk mitigation includes consultation with staff and a review of delegations in place at other local governments.
