\$100 Fuel Support Payment

If you have a valid WA driver's licence (including Learner, P-Plate and Extraordinary licenses), you may be eligible to claim the one-off \$100 Fuel Support Payment.

If you need help using the ServiceWA app, drop in and our friendly CRC staff will be happy to assist.

Paper claim forms are available at the Frankland River CRC.

Important Information Before You Pay Your Rates

Every Rates Notice comes with its own unique BPAY Reference Number – and it's essential you use the correct one when making a payment.

⚠ If you don't, your payment may not be applied to the correct property... what does that mean?

✱ That means you could be charged interest on what appears to be an 'unpaid' Rates Notice – even if you've already paid!

✅ What to do:

- ✓ Check your Rates Notice
- ✓ Use the unique BPAY Reference provided
- ✓ Pay each Rates Notice separately via BPAY
- ✓ Avoid unnecessary fees or confusion

Stay on top of your payments – double-check before you pay! 💰

⌚ Paying your rates after the due date means interest will accrue daily on any overdue amount – so it pays to be prompt.

Mangers Report

It has been a busy fortnight in the CRC with our third St John First Aid course being held, Auschem successfully completed, a fun Movie Session for the kids and two Lego Clubs held.

Lego Club has been getting busier every week and we love seeing the children enjoying all the new Lego. We also had a donation of a large tub of Lego from a new resident which is greatly appreciated.

Lego Club and Dancing will continue on Mondays at 4.30pm. Contact the CRC if you would like your child to attend.

The Bowen therapy sessions and Chiropractor visits each month are becoming more popular, if you would like more information on these services contact us at the CRC.

With the start of the new financial year, memberships for the CRC are now available for the coming year. We appreciate the support of all members, with a reminder that becoming a member gives you discounts for services within the CRC.

With the Toy library now operating under the CRC, it is open Monday to Friday 9.00am to 4.30pm and we are offering a discounted combined membership for the Toy Library and CRC. Pop in and check out our new setup and toys.

Have a wonderful fortnight

Teresa

How to check in on someone

Helping others and providing support can make a difference for someone who is having problems and going through a tough time. If you think someone you care about isn't going so well, try the following tips on how to support them and continue to check in on them.

Talk

For most people, just asking if they are okay and listening can make a difference.

By simply being there for someone, they can feel less alone and more supported to open up and talk about how they are really feeling.

Asking open ended questions that require a response is a good way to start the conversation.

FOR EXAMPLE:

- How are you going? What's been happening in your life lately?
- You don't seem quite yourself lately, is something bothering you?
- You seem upset or worried, what's going on? Can I help with something?
- I've noticed you're not going out much lately, anything going on?

Do an activity together

Activities create conversation. Find an opportunity during everyday life activities to start the conversation and ask them how they are really feeling. Try doing activities together such as:

GOING FOR A WALK

GOING TO AN
EVENT TOGETHER

GOING FOR A COFFEE
OR A MEAL

KICKING THE FOOTY,
PLAYING A GAME,
SURFING ETC

GOING FOR A DRIVE

ANYTHING THAT
ENCOURAGES OR PROVIDES AN
OPPORTUNITY TO HAVE A CHAT

Listen

Just being there for someone and offering a listening ear can make a difference.

1. Show them that you care and are here to listen to them.
2. Have patience, let others talk and don't judge.
3. Be reflective by repeating what they have said.
4. Keep calm and accept that they may disagree with you.

Provide support

If the person you're concerned about is in a life threatening situation, or is at risk of harm to themselves or others, call 000.

Getting help early can make a difference. A good place to start is:

- Talk to your GP or someone you trust.
- Call a support line.
- Contact a support service.
- Try the Think Mental Health check-up tool.

They may also need your support while they look for professional help.

We have over 50 years experience in the Shearing Industry and have seen it all, so we are very aware of how hard the farmers are doing at the moment, I am always available to talk with the farmer.

In other words I do not ignore my calls!

My team is reliable and get along well with the farmer, so it takes a lot of stress out of Shearing when the Contractor is available, and the farmer can come into his own shed and talk with the team and be treated with respect...

We are a 1 team operation so we take care with the farmers sheep and have pride in our work!

Why baby bottle self-feeding devices are now banned

In case you missed it, baby bottle self-feeding devices were permanently banned by the Australian Competition and Consumer Commission (ACCC) back in May.

Baby bottle self-feeding devices are designed to allow bubs to drink from a bottle without an adult holding it. Some use pillows or a body worn holder to prop up a bottle in the baby's mouth, while others use flexible tubes or straws that connect a teat to a bottle.

These devices have been linked to life-threatening risks of choking, suffocation or aspiration, which is when liquid enters the lungs instead of the stomach. An ACCC investigation found these were unacceptable safety risks.

As a parent or carer, you may think these self-feeding products make things easier, especially when you're busy juggling multiple tasks, but babies cannot safely manage feeding on their own. Unlike older children, babies cannot regulate the flow of milk or remove a bottle if they start to choke.

Another danger is the potential lack of active supervision. You could miss the important signs that your bub is in distress, such as gagging or discolouration of the lips, tongue or nose that may signal respiratory problems.

For parents and carers, the safe feeding advice is clear that babies should always be actively supervised, and bottles should never be propped up or left in a baby's mouth unattended.

If you own a baby bottle self-feeding device, you should stop using it immediately and dispose of it safely so it cannot be used by anyone else.

The ban also places legal obligations on businesses. It is now illegal to manufacture, advertise, sell, supply or offer to supply these products in Australia. Businesses that continue to sell banned products may face significant penalties.

Supplemental nursing systems used to support breastfeeding, or sippy cups and trainer cups designed for older infants and toddlers learning to drink independently are not affected by this ban.

Parents and carers who see baby bottle self-feeding devices being sold are encouraged to report the products to Consumer Protection's product safety team – consumer@lgirls.wa.gov.au
