## 1.0 INTRODUCTION

A review of the Shire of Cranbrook's 1996 Heritage Inventory is a requirement of Part 8 of *The Heritage Act 2018*. Inventories have been renamed "Local Heritage Surveys".

### 1.1 Aboriginal Cultural Heritage

*The Heritage Act 2018* only references places of historic heritage significance while places and elements of Aboriginal cultural heritage significance come under the jurisdiction of *The Aboriginal Heritage Act 1972*.

Places of Aboriginal cultural heritage are listed on the Department of Planning, Lands and Heritage (DPLH) website: Aboriginal Cultural Heritage Inquiry System (ACHIS).

Aboriginal cultural heritage places can also be places of historic heritage significance. The Local Heritage Survey undertaken within the requirements of *The Heritage Act 2018* is relevant to all places of historic cultural heritage significance of the post-contact period.

### 1.2 Historic Heritage

This review is in accordance with the Part 8 of *The Heritage Act 2018* that includes the requirement of the identification of a "Heritage List" of the most significant places within the local government area, and a Local Planning Policy (LPP) to support the future conservation of those places.

It is undertaken in consideration of the HCWA's *Guidelines for assessment of local heritage places* (2022) as recommended in *State Planning Policy 3.5 Historic Heritage Conservation*.

Assessments determine levels of significance for each place in consideration of the overall context of the Shire of Cranbrook. The levels of significance are consistent with the required categories that are described in Section 3 and detailed in Section 4.

Understanding of the historic heritage value of a place is the foundation for substantiation of inclusion in the Local Heritage Survey. Almost every place in the review has been photographed, some historical research has been undertaken beyond the existing documentation, the information has been interpreted and formatted, cross referenced with other places, and documented in the formatted table of places, with references to the Department of Planning, Lands and Heritage's inHerit database number and arranged in alphabetical order of town and district.

Further to the total of 122 listings, 28 of those places are recommended for the Heritage List (categories 1 and 2). The remaining 94 places are categories 3 and 4 with no implications. Of the 28 places recommended for the heritage List, only 1 is a Category 1 (Tenterden Agricultural Hall site) and of the remaining Category 2 recommendations, only five are in private ownership; Cranbrook Hotel, Yeriminup Homestead, Yeriminiup Sheep Wash, Wonnenuh Homestead, and the former Travellers Rest. Except for Churches (3), the remaining sites are buildings are under Shire of Cranbrook ownership, control or management, or are government reserves.

The Local Heritage Survey references places by their original owner/operators where possible with (former) after the name indicating the former naming rather than recent naming that changes over time.

Community consultation is invaluable in providing local input to places and their histories to further build on the Local Heritage Survey and to engage and empower the community in recognition of their heritage and is very much appreciated for the contributions to inform this report. The report requires further community scrutiny, information and amendments to provide a thorough outcome of the wonderful heritage of the Shire of Cranbrook.

## 2.0 INDICATORS FOR CULTURAL HERITAGE SIGNIFICANCE

Every place previously listed in the original 1996 heritage inventories has been assessed within the Heritage Council's 2022 *Assessment of local heritage places*.

The five indicators of significance for the assessment are summarised hereunder:

### 2.1 Aesthetic Value:

It is significant in exhibiting particular aesthetic characteristics valued by the community.

#### Overview

Aesthetic value is necessarily subjective and should not simply rely on a common perception or most popular view.

There is a need to consider aesthetics as understood by different community groups and cultures.

A place does not necessarily need to conform to prevailing 'good taste' or be architecturally designed to display aesthetic qualities. For example, vernacular buildings that sit well within their cultural landscape due to the use of local materials, form, scale, or massing, may also have aesthetic value.

The aesthetic qualities of gardens, plantings and cultural landscape settings should also be considered.

#### Indicators

Places demonstrating this value should have importance:

- to a community for aesthetic characteristics.
- for its ability through archaeological investigation to reveal obscured fabric due to subsequent alterations or additions and in so doing, reveal aesthetic characteristics of an earlier structure, either through design or setting aesthetic characteristics of an earlier
- for its creative, design or artistic excellence, innovation, or achievement
- for its contribution to the aesthetic values of the setting demonstrated by a landmark quality or having impact on important vistas
- for its contribution to the aesthetic qualities of the cultural environs or the natural landscape within which it is located or importance for its contribution to the natural landscape as part of a cultural environment
- for the aesthetic character created by the individual components that collectively form a significant precinct; that is, streetscape, townscape, or cultural environment

#### Guidelines For Exclusion

A place will generally be excluded if:

- the aesthetic qualities of the place do not exceed those of the general class to which the place belongs
- its distinguishing features have been lost, irreversibly impacted, or compromised
- its landmark or scenic qualities have been irreversibly impacted by subsequent activities or development

### 2.2 Historic value:

It is significant in the evolution or pattern of the history of Western Australia

#### Overview

The historic values associated with a place should be explored with reference to the thematic history for the locality and/or region.

#### Indicators

Places demonstrating this value should have importance:

- for the density or diversity of cultural features illustrating the human occupation and evolution of the locality, or region
- in relation to an event, phase, or activity of historic importance in the locality, or region
- for close association with an individual or individuals whose life, works or activities have been significant within the history of the locality or region
- as an example of technical, creative, design or artistic excellence, innovation, or achievement in a particular period.

The associations should be strong and verified by evidence and will most often be supported in the fabric of the place.

However, consideration should also be given to places with little or no fabric such as archaeological sites, ruins, and sites of historical importance.

#### Guidelines For Exclusion

A place will generally be excluded if:

- no reliable or verifiable physical, documentary, or historical evidence exists to demonstrate the association of the place with an historical event or phase in the locality

### 2.3 Scientific value:

Potential to yield information that will contribute to an understanding of the history of the locality or region.

#### Overview

These indicators will generally inform a determination of scientific value. They will commonly be used to assess significance of identified, or potential, archaeological deposits, or to identify places that through investigation may reveal earlier construction and design techniques.

#### Indicators

Places demonstrating this value should have importance:

- for information/archaeological material contributing to a wider understanding of cultural history by virtue of its use as a research site, teaching site, type locality, reference, or benchmark site

### 2.4 Social value:

It is significant through association with a community or cultural group in the locality or region for social, cultural, educational, or spiritual reasons.

#### Overview

Places of social value are commonly, but not always, public places that make a positive contribution to the local 'sense of place' and identity. They may be symbolic or landmark places, and may include places of worship, community halls, or schools, as well as privately owned places such as hotels, cinemas, or sporting venues. However, more modest places such as private residences may also be of importance to a particular group within the local community.

#### Indicators

Places demonstrating this value should be:

- highly valued by a community or cultural group for reasons of social, cultural, religious, spiritual, aesthetic, or educational associations.

Places need not be valued by the entire community to be significant. For example, a place may be valued by a community or cultural group based on its associations with a particular group's ethnic identity, religious belief, or profession.

#### Guidelines For Exclusion

A place will not normally be considered if:

- the associations are not held very strongly or cannot be demonstrated satisfactorily to others

- the social value is historical rather than in the present day.

Care should be taken not to confuse cultural heritage significance with amenity or utility.

There must be evidence that the building/ place is valued over and above everyday activities that occur there.

## 2.5 Spiritual value:

It is significant because it embodies or evokes intangible values and meanings which give it importance in the spiritual identity, or the traditional knowledge, art, and practices of a cultural group.

### Overview

Spiritual value refers to the intangible values and meanings embodied in or evoked by a place which give it importance in the spiritual identity, or the traditional knowledge, art, and practices of a cultural group. Spiritual values may also be interdependent on the social values and physical properties of a place.

### Indicators

Places demonstrating this value should have importance for:

- contributing to the spiritual identity or belief system of a cultural group
- being a repository of knowledge, traditional art or lore related to spiritual practice of a cultural group
- maintaining the spiritual health and wellbeing of a culture or group
- finding expression in cultural practices or human-made structures, or inspire creative works

A place will not normally be considered if:

- the associations are not held very strongly or cannot be demonstrated satisfactorily to others
- the spiritual value is historical rather than the present day.

## 2.6 Heritage Areas - an extra factor

A Heritage Area will be of significance for the local district if:

- it meets one or more of the values noted above in terms of aesthetic, historic, scientific, social, or spiritual significance; and,
- it demonstrates a unified or cohesive physical form in the public realm with an identifiable aesthetic; historic or social theme associated with a particular period or periods of development.

### Guidelines For Inclusion

A heritage area should have an overall theme or connecting heritage value that demonstrates a strong unifying character. It should always be established on the basis of a clear statement of significance, (that explains what is significant about an area and why) that describes its key features and elements. The individual components of a heritage area will collectively form a streetscape, townscape, or cultural environment with significant heritage characteristics, which may include architectural style, town planning or urban design excellence, landscape qualities, or strong historic associations.

In some cases, the development of a heritage area may span an extended period and include a variety of building types. In such cases it may be worthwhile to analyse the different phases of growth as part of the assessment, while also demonstrating the 'unifying thread' that holds the area together as a meaningful whole.

### Guidelines For Exclusion

Heritage significance needs to be clearly distinguished from the broader concept of urban character, given that all areas or localities demonstrate some form of this. Heritage values can be conserved, diminished, destroyed, enhanced, or restored, but (unlike other amenity values), cannot be replicated. Heritage Areas are select areas with special qualities and will generally be quite uncommon.

Further information on identification and adoption of heritage areas, as well as development of local planning policy for heritage areas, is included in separate guidelines.

**Representative** - importance in demonstrating the characteristics of a class of cultural places or environments in the local district.

#### Overview

This indicator explores how well a place would stand as a representative of others in its class. The analysis of representativeness provides information that helps to assess the relative merits of a place against its peers.

A place may demonstrate representativeness with respect to any of the values.

A place will generally be considered to be representative if it:

- provides a good example of its type
- is representative of a common building or construction type, a particular period or way of life, the work of a particular builder or architect, or an architectural style

To be considered a good representative example, the place should have a high level of authenticity.

#### Guidelines For Exclusion

A place would generally not be considered to be representative if:

- its characteristics do not clearly typify its class
- the representative qualities have been degraded or lost.

Substantiation of the heritage value of heritage places is the foundation for understanding a place and inclusion in the Local Heritage Survey.

For each place deemed to be of heritage value, a level of significance and consequent grade is applied.

### 3.0 LEVELS OF SIGNIFICANCE

For each place deemed to be of heritage value, a level of significance and consequent category is applied.

The following table from the Heritage Council's *Guidelines for assessment of local heritage places* (2022) illustrates the details to identify relevant categories for the identified places.

Each place was categorised on the basis of the following levels of significance:

| LEVELS of SIGNIFICANCE                          | DESCRIPTION                                                                                                                                           | DESIRED OUTCOME                                                                                                                                                                                                                                                                                                                                                      |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Category 1</b><br>Exceptional significance   | Essential to the heritage of the locality<br>Rare or outstanding example.                                                                             | Register of Heritage Places<br>The place should be retained and conserved.<br>Any alterations or extensions should reinforce the significance of the place<br>Refer to Heritage Council.                                                                                                                                                                             |
| <b>Category 2</b><br>Considerable significance  | Very important to the heritage of the locality.<br>High degree of integrity/authenticity.                                                             | <b>HERITAGE LIST</b><br>Conservation of the place is highly desirable.<br>Any alterations or extensions should reinforce the significance of the place.                                                                                                                                                                                                              |
| <b>Category 3</b><br>Some/Moderate significance | Contributes to the heritage of the locality. Has some altered or modified elements, not necessarily detracting from the overall significance of the item.<br>Any alterations or extensions should reinforce the significance of the place.<br>Original fabric should be retained where possible. |
| <b>Category 4</b><br>Little significance        | Has elements or values worth noting for community but otherwise makes little contribution                                                             | <b>NO CONSTRAINTS</b><br>Contributes to the history of the locality.<br>Photographically record prior to any major development or demolition.<br>Recognise and interpret the site.                                                                                                                                                                                   |

## 4.0 CATEGORIES

In line with Heritage Council's guidelines, Category 1 and 2 places are recommended to be included in the Local Heritage Survey to facilitate a level of management through the Local Planning Scheme that will provide guidance to the owners, managers, and statutory authority, to respond to that assessed significance.

Categories have been determined relevant to the assessed level of significance for each place. Implications for each recommendation are also summarised.

### **Category 1      Registered Places and those currently under consideration for the Register.**

A place of exceptional cultural heritage significance to Shire of Cranbrook and the state of Western Australia, that is either in the Heritage Council of Western Australia's Register of Heritage Places, or worthy of consideration for entry into the Register.

A place worthy of recognition and protection through provisions of the Shire of Cranbrook's Planning Scheme.

Planning application needs to be submitted to Shire of Cranbrook for any proposed development. A Heritage Impact Statement may be required.

Planning application referred for heritage comment and background information for Heritage Council of Western Australia (HCWA).

The development application needs to be submitted to HCWA for support for any proposed development, and Shire of Cranbrook cannot approve contrary to HCWA recommendation.

**Recommend:** Maximum encouragement to owners to retain and conserve the place. Full consultation with property owner prior to making the recommendation.

#### **IMPLICATIONS of REGISTRATION:**

A Memorial is lodged on the Certificate of Title of the Registered place under the provisions of the *Heritage Act (2018)*.

By virtue of the *Heritage Act (2018)*, the owner is bound to conserve the place.

ALL development (including demolition) MUST be referred to Heritage Council for consideration PRIOR to undertaking any works.

The Shire of Cranbrook cannot approve anything contrary to Heritage Council recommendations.

Private owners of Registered places qualify for the Heritage Council's Conservation Grants Funding. A Conservation Management Plan or Conservation Management Strategy is a pre-requisite for conservation works funding assistance from the Heritage Council.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding. It is funded loosely on a \$ for \$ basis, although 'in-kind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is a pre-requisite for conservation works funding and can also be funded.

Local Government owned Registered places qualify to claim for \$10,000 per annum 'Disability allowance' through the Grants Commission. Up to a maximum of \$50,000 is allowed for 5 buildings or more.

**Category 2** A place of considerable cultural heritage significance to Shire of Cranbrook that is worthy of recognition and protection through provisions of the Shire of Cranbrook's Planning Scheme.

Planning application needs to be submitted to Shire of Cranbrook for any proposed development for particular consideration of the heritage impact.

**Recommend:**

**Inclusion in the Heritage List**

Retain and conserve the place.

Document the place prior to any development; and photographic archive report if retention is not possible.

**IMPLICATIONS:**

**Planning applications must be submitted to Shire of Cranbrook for approval prior to undertaking any works.**

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding. It is funded loosely on a \$ for \$ basis, although 'in kind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding and may also be funded on same basis as works funding assistance.

**Category 3**

A place (including a site with no built remains) of some /moderate cultural heritage significance to Shire of Cranbrook.

No constraints.

Some/moderate contribution to the heritage of the Shire of Cranbrook.

No constraints.

**Recommend:** Encourage retention of the place, or where there are ruins, archaeological findings or no built remains: Interpret the place.

**IMPLICATIONS:**

If a planning application is submitted to the Shire of Cranbrook for approval, if approved a condition of development will require documentation and a photographic record of the place prior to any development or if retention is not possible.

There are **no statutory requirements** pertaining to heritage issues.

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding, although at a lower priority. It is funded loosely on a \$ for \$ basis, although 'in-kind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding and may also be funded on same basis as works funding assistance.

**Category 4** A place (including a site with no built remains) of little cultural heritage significance to Shire of Cranbrook.

No constraints.

**Recommend:** Encourage retention of the place, or where there are ruins, archaeological findings or no built remains: Interpret the place.

**IMPLICATIONS:**

If a planning application is submitted to the Shire of Cranbrook for approval, if approved a condition of development will require documentation and a photographic record of the place prior to any development or if retention is not possible.

There are **no statutory requirements** pertaining to heritage issues.

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding, although at a lower priority. It is funded loosely on a \$ for \$ basis, although 'in kind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding and may also be funded on same basis as works funding assistance.

## 5.0 LOCAL HERITAGE SURVEY 2026

Ninety-four (94) new places and sites have been identified and listed in the Local Heritage Survey that comprises a total of 122 places and sites.

The Local Heritage Survey list is presented in alphabetical order of towns and districts and the recommended category.

### 5.1 List of places

| No. | inHerit | Place Name                                                                                  | Street Name                                   | Category |

Harry Childs was known as Butch, and he called his wife Violet "Mother".</p> <p>Violet worked the greengrocer shop four afternoons, except for Thursdays when she worked the butcher shop.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 5 | 608 | St Oswald's Anglican Church and Rectory | 17 Climie Street<br>(Great Southern Highway) |   | <p><b>Significance</b></p> <p>St Oswald's Anglican Church and Rectory is historically, socially and spiritually significant in representing the resilience of community effort and the pastoral services in the Cranbrook community.</p> <p><b>History</b></p> <p>The first Anglican service in Cranbrook was on Easter day in 1906 when Reverend Stanfield arrived on horseback ministering at Cranbrook, Ballochmyle and Tenterden. Funds were raised from the monthly dances. Plans were made for a church in 1913 as church services continued in Cranbrook, Tenterden, Frankland River and Kybellup. World War One delayed the plan. A foundation stone was laid in February 1918. Weekly services continued from the Mt Barker's Parish clergymen.</p> <p>St Oswald's Church was built in 1917-18 of local stone with brick quoining at the corners and around the windows. War time shortages made roofing iron unobtainable, so some good second-hand iron was obtained from Kalgoorlie.</p> <p>The Church was built with considerable community effort.</p> <p>The first service at St Oswald's was conducted by Rev H G Barnacle on 10 March 1918. The Cranbrook-Tambellup Parochial District was formed in 1954, and the first rector was Rev Todhunter.</p> <p>The rectory was built in 1955.</p> |

|   |     |                                            |                                                                        |                                                                                                                                                                          | <p>The Patronal Festival and Jubilee of St Oswald's Church were held on 11 August 1968, fifty years after the first service in 1918.</p> <p>Extensions to the east side of the church were added in keeping with the original style in 1977. The nave was extended to the west, and a suitable entrance was provided. A vestry and a meeting room was added to the southeast wall.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6 | new | Cranbrook General Store<br>(former bakery) | Climie Street (Great Southern Highway) north corner of Grantham Street |   | <p><b>Significance</b></p> <p>The former bakery is of historic and social significance in representing a way of life integral to the goods and services for the benefit of the Cranbrook community in a way of life no longer practiced.</p> <p><b>History</b></p> <p>Eric Hitchins owned Pynup and Slate Quarry and after World War One had been the Land Inspector for the Agricultural Bank. In 1923, he relocated a house from this site to his Pynup property.</p> <p>LL Meek acquired the vacant site in 1929 and established a bakery with double ovens; the first bakery in town. Several owners were after him, including JB (Joe) Pages Bakery and Store in the 1960s, after a few years in Frankland. The Climie Street frontage had a petrol bowser with Pages Bakery facing Grantham Street. Later there was a billiard room and then Norma Dunn's drapery store. Jack Lister, an excellent pastry cook, acquired the property. He had 10 children and made a few changes to the building to accommodate the family; he changed the shop front from Climie Street to Grantham Street, and made the original drapery shop into bedrooms, the alterations all in consideration of the bakery ovens. He also installed petrol bowers on Grantham Street frontage. They later moved to Albany. The former bakery is a general store.</p> |

| 7  | new | Lattice Tea & Dining Rooms (former)                 | 107 Climie Street (Great Southern Highway) |  | <p><b>Significance</b></p> <p>The former Lattice Tea &amp; Dining Rooms is of historic and social significance, integral to the provision of goods and services for the benefit of the Cranbrook community.</p> <p><b>History</b></p> <p>The former Lattice Tea &amp; Dining Rooms was owned by N and M Vuletic. Ken Hunter had a shop in Climie Street in 1926 taking over Stafford Higgins' tea rooms. That store became a drapery run by Ken's mother: Gwen Hunter. From the 1950s to the 1960s, Mrs Williamson ran the store.</p> |
| 8  | new | SITE Stafford Higgin's tea rooms and Billiard Hall  | 109 Climie Street                          |                                                                                     | <p><b>Significance</b></p> <p>The site of the former billiard hall and Stafford Higgin's tea rooms/store is of social significance in representing a social community facility in the late 1920's for the benefit of the Cranbrook community.</p> <p>The billiard hall was not successful. The Dunn family had relocated their business to the site and built a store in the 1950s. It is the site of the first police station in town, and the library.</p>                                                                          |

| 12 | new | SITE of original Cranbrook RSL Bowling Club<br>GILLAMII Centre | 140 Climie Street<br>(Great Southern Highway) |  | <p><b>Significance</b></p> <p>The site is historically and socially significant as the Cranbrook Bowling Club built by RSL members. The GILLAMII Centre's passion, enthusiasm and intellect is of historic value as it makes a considerable contribution to a vision and practical direction for a sustainable future for the communities of Cranbrook town and district.</p> <p>Cranbrook was a regular meeting spot for Noongar people with meetings of 70-80 people on the site of the Cranbrook Bowling Club.</p> <p><b>History</b></p> <p>The first Cranbrook Bowling Club was on this site in 1955 by the RSL, with real grass, and a clubhouse in 1961 and was active until 1982.</p> <p>The Gillamii Centre was founded in 1994 by a group of passionate individuals who believed that there was a need for a community-based centre to promote and streamline natural resource management and sustainable agriculture initiatives.</p> <p>The formation of the group came after the amalgamation of LCDC Groups which were previously administrated through the WA Department of Agriculture.</p> <p>The Gillamii Centre was named after local resident (1905-1989), Mr Alf Gillam, who held a passion for the conservation of the Cranbrook Bell (Darwinia meeboldii), was a founding member of the Cranbrook Conservation Group, and was awarded an Order of Australia medal for his work in conservation.</p> <p>Gillamii has a large data base of members and like-minded individuals interested in the management of our natural and agricultural resources. Whilst the two areas of Natural Resource Management and Agricultural Production are to some degree distinct, they are also inextricably linked.</p> |

To achieve this, The Gillamii Centre has worked with a range of stakeholders, notably farmers, local governments, CSIRO, Department of Primary Industries (DPIRD) and South Coast Natural Resource Management (SCNRM).</p> <p>The Gillamii Centre's operating area covers the entire Shire of Cranbrook and several localities within the Shire of Broomehill-Tambellup.</p> <p>The organisation is managed by a dedicated committee of community members and a team of professional and passionate staff. The committee represent the interest of the community in delivery of positive Natural Resource Management (NRM) and production agriculture outcomes. The Committee is responsible for the strategic direction of Gillamii and meet annually to critically review the Strategic Plan.</p> |

| 18 | new   | CWA rooms (former)     | 7 Gathorne Street                |  | <p><b>Significance</b></p> <p>The former Cranbrook CWA rooms are of significant aesthetic, historical and social significance to the community and district. Renowned for their support of women and children in the community and their volunteering work, it represents an outstanding organisation and a fine example of interwar architecture.</p> <p><b>History</b></p> <p>Mrs MacDonal Warriup's school teacher started the Country Womens Association (CWA) in Cranbrook in the 1930s. By 1937 the restroom was constructed in town. Mrs MacDonal also initiated the Red Cross. The Baptist Church held their meetings in the CWA rooms between 1949 and 1955.</p>                                                                                                                                                                                                                                                                                                                                                                        |
| 19 | 15699 | Cranbrook War Memorial | Gathorne St<br>(railway reserve) |  | <p><b>Significance</b></p> <p>The War Memorial is of considerable historical and social significance to the community in commemoration of those who served in world wars and other conflicts. The memorial also has aesthetic significance, set in the garden setting that is cared for by the community.</p> <p>The memorial is a revered site where significant remembrance events take place. It is highly valued by the local community, many of whom are related to those who are commemorated.</p> <p><b>History</b></p> <p>The war memorial was originally located in Frederick Square. It was built by mothers of the fallen soldiers and an avenue of trees honoured the fallen. In 1922 sugar gums were planted to form a guard of Honour in Frederick Square. Each tree was dedicated to one of the fallen in World War One. The trees all died after insecticide treatment.</p> <p>In the late 1930s the Returned Services Men's League was revived in Cranbrook. Meetings took place in the hotel or at the Road Board offices.</p> |

|----|-----|------------------------------------------|------------------------------------------------------|--------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    |     |                                          |                                                      |                                                                                      | <p>By 1950 the War Services Land Settlement Scheme was established for returned soldiers. In 1956 the Roll of Honour was installed in the new Memorial Hall. When the old hall was demolished in 1954, a motion was put to relocate the war memorial to a more prominent location. Permission was required from the Railways. It was granted in 1955 and the memorial was relocated to this site by volunteers.</p> <p>In 1960 the rose garden was established and Jack Gardiner who looked after it was made Warden of the Memorial. The RSL and Ladies Auxillary raised money causing controversy with what to do with the funds. Working bees took place to establish the RSL Bowling Club that opened in 1958 with club house in 1961.</p> <p>Jack Haynes and other RSL members began fundraising for a club house for cricket, bowling and basketball, and in 1979 channeled into the establishment of the RSL Golf Club.</p> |
| 20 | new | Cranbrook Post Office and phone exchange | 15 Gathorne Street (northwest corner of Dunn Street) |  | <p><b>Significance</b></p> <p>The site of the Village Square, and later the Post Office and phone exchange, represent social and communication significance that are of historic value in representing ways of life no longer practiced and the technology of communication that has developed over that time. The social values of the Village Square and the post office as places where the community comes together and meets and engages makes a considerable contribution to the community of Cranbrook and town and district.</p> <p><b>History</b></p> <p>The site was the Village Square that accommodated travelling shows when they came to town, and the annual bonfire (5 November) before the Post Office on the site.</p> <p>The building appears to be of the 1950s period.</p>                                                                                                                                    |

The Memorial Hall constructed in c.1937 presents an Interwar architectural style influenced by the art deco of the period.</p> <p>Cranbrook Memorial Hall and Road Board office.</p> <p>The official opening of the Cranbrook Hall was commemorated on 31 August 1957 and officially opened by Mr LG Nordacre Esq JP.</p>                                                                                                        |
| 23 | 606 | Road Board Office and Town Hall (former) | 17 Gathorne Street |  | <p><b>Significance</b></p> <p>The existing former Cranbrook Road Board building and Town Hall are of aesthetic, social and historical significance as a fine example of the use of local stone, as the place of civic associations and management of the town and district, and socialising. It's history evidence changes over time of ways of life that contribute to the community of Cranbrook and town and district.</p> <p><b>History</b></p> <p>The Road Board Office was reputedly built in 1908 from local stone sourced from several farms in the area.</p> <p>Cranbrook Road Board was established in 1926 with JM Woulfe the first Chairman when it became its own entity separate from the Plantagenet Road Board. Records show there was a timber addition in the 1940s later replaced by bricks.</p> <p>The original hall was demolished in 1954.</p> |

| 29 | 6496 | <u>Railway Group</u><br>Cranbrook Stationmaster's House (former)<br>Cranbrook Museum | Gathorne Street |   | <p><b>Significance</b></p> <p>The former Cranbrook Stationmaster's House is of considerable historical significance as an integral element of the 1889 Great Southern Railway between Albany and Beverley, contributing to the further development of the district, economically and socially, and representing a way of life no longer practiced.</p> <p><b>History</b></p> <p>This was one of the first houses, and the first brick house, and is now the oldest house in the town, built soon after the Great Southern Railway in 1889. Situated opposite the Hotel and close to the Railway Station, it was built for the Station Master. The longest serving Station Master to live in the house was David Borrett, from 1952 to his retirement in 1984. During which time a fettler's cabin was located at the back of the house as an additional bedroom in the 1970s.</p> |
| 30 | new  | <u>Railway Station Group</u><br>Railway Station & Platform<br>Loading ramp & crane   | Gathorne Street |  | <p><b>Significance</b></p> <p>The site of original Cranbrook Railway Station and c.1960s railway station, including the platform, ramp and crane, on the 1889 Great Southern Railway between Albany and Beverley, has significant historical significance as the catalyst for the development of the town and district making connections that impacted both economically and socially.</p> <p><b>History</b></p> <p>It was proposed to build a railway line to be known as the Great Southern Railway Line to connect the port of Albany with the Swan River Settlement (Perth). The Government proposed a system of giving grants of land along the route to the builders of the railway at a number of acres per mile of line constructed. Land Between Fremantle and Beverley was already taken up, the proposal was for the Albany to Beverley connection.</p>               |

|  |  |  |  |    | <p>In January 1892, the Government awarded the boundaries of Cranbrook and Tenterden, defining towns, streets and reserves. Tenterden was the largest settlement at that time.</p> <p>In 1893 Tenterden (Round Swamp) had a town and railway siding, school, post office, Climie's Store and Gillam's Inn. Cranbrook only had a railway station- the first building in the town. By 1894, Cranbrook dominated with 19 houses, and by 1897, 40 houses, platelayers, hotelier, stationmaster, gardeners, shopkeepers, farmers and graziers.</p> <p>In 1896 the Government took over the railway line after Land Corporations financial difficulties. The Government contracted Anthony Hordern's West Australian Land Company Ltd to construct the Beverley to Albany section.</p> <p>Railway construction gangs were established at Pootenup and Tenterden. Hugh Climie supplied food to the workers, and established stores including one at Round Swamp. Tenterden area provided the timber for the railway ballast. Water was not available at Tenterden area and Cranbrook became the main source of water and landform for the railway station, to the detriment of Tenterden that was the main centre of the district at that time. The railway opened in 1889.</p> <p>On the east side of the railway line in Cranbrook there were seven fettlers houses opposite the railway station.</p> <p>In 1894 Cranbrook was declared a gazetted townsite.</p> <p>Two trains a day passed through with on-demand-stops-only, at Pootenup and Tenterden.</p> <p>By the 1960s, rail transport was having increasing difficulty competing with road transport. In 1978, the last passenger train ran from Albany to Perth.</p> |

| 31 | 605 | Cranbrook Hotel | 29 Gathorne Street (North corner of Gordon Street intersection) |  | <p><b>Significance</b></p> <p>The Cranbrook Hotel is of considerable historic, aesthetic and social significance as the only two storeys building in Cranbrook, it is a substantial landmark opposite the Railway precinct and makes a significant contribution to the streetscape and townscape of Cranbrook.</p> <p>The development of the hotel since 1889 is testimony to the owners and publicans, and the community who have socialised and supported the hotel and the changes over time. It is valued for the services that contributed to the Cranbrook community.</p> <p><b>History</b></p> <p>The first Cranbrook Hotel was built in 1889 for George Dunn his wife Selina who was one of TM Gillam's daughters of the Porongurups, were the first owner licensees of the modest, corrugated iron clad building.</p> <p>The Cranbrook Hotel was conveniently located opposite the railway station. The hotel was a centre point for local meetings as well as a place to accommodate weary travellers and teamsters. Early in the 1900s, the Salt River area (east) was pioneered and settled. The settlers and sandalwood carters came to Cranbrook with their teams and wagons as this was the nearest rail head to the Port of Albany.</p> <p>The hotel has connections with some well-known local people. The Williamson family owned the freehold after 1924. When the hotel was rebuilt the bricks for the building were made on their farm. Phil Walters, a World War One veteran, helped with work on the new hotel. His dog Softy's paw prints are still visible on the veranda concrete.</p> <p>In 1907, AC Gardiner acquired the Cranbrook Hotel from Dunn and replaced the original hotel with a brick construction. In 1910 he sold Cranbrook Hotel to Frederick Moyle. In 1928 local bricks were used</p> |

|  |  |  |  |  | <p>They included the Toovey Family, Mrs Jean Kleemann, Mrs Rene Johnston, Mr and Mrs Togno, Mr and Mrs Phillips and the Devine family who travelled in from Frankland for every service. Father Gilroy was the first Minister. Gnowangerup supported the Borden Church, so Cranbrook joined the Mt Barker Diocese. Every 5<sup>th</sup> Sunday (3 times a year), services were held in the Tenterden Hall. The priest from Albany was accommodated in Round Swamp Inn.</p> <p>The construction of this building was due to the local fund raising by dedicated parishioners. They included the Toovey Family, Mrs Jean Kleemann, Mrs Rene Johnston, Mr and Mrs Togno, Mr and Mrs Phillips and the Devine family who travelled in from Frankland for every service.</p> <p>Fund raising began in 1929, and town Lots 77-78 were purchased from Mr A P O'Donnell for £50 (pound). Mr G Duckett of Mount Barker was contracted to build the timber framed weatherboard church for £525 (pound). The church was opened in May 1939 by His Grace Archbishop Prendiville of Perth. It was dedicated to St Anne, Mother of the Virgin Mary. The first priest was Rev Fr M Holohan. Mass was celebrated once a month in the new church, previously it was monthly at Tenterden Hall. In the early 1990s a plan to relocate the church to Albany was opposed by local parishioners as it had been financed and was built by and for the Cranbrook people. The Bishop upheld objections and the church celebrates monthly Mass.</p> <p>The windows and entrance doors are gothic style. The facades in each section are adorned with timber gables, and at the apex of each (5) is a hand carved cross, and handcrafted wooden furnishings, all carved by Phil Walters.</p> |

| 37 | new | Cranbrook Baptist Church                                                               | 50 Grantham Street          |   | <p><b>Significance</b></p> <p>Cranbrook Baptist Church is historically, socially and spiritually significant in representing the resilience of community effort, the pastoral services, and Sunday School in the Cranbrook community.</p> <p><b>History</b></p> <p>In March 1949, a constitution was declared for the Cranbrook Baptist Church: as an outlying station of the Mt Barker &amp; Districts Baptist Church, John Moore and the Honorary Pastor. One service a week was held in the CWA rooms in Cranbrook. In 1950, the Western Australian Home Mission Society appointed Reverend Henry Atkins. Sunday School for all denominations was introduced in 1952. Mr JC Preston donated land for a church. The foundation was laid in May 1954, and the church was built by volunteers under the direction of W Potter, opening on 22 October 1955 with 200 people in attendance.</p> |

| 40 | 6495 | Old Railway Dam<br>Pump Dam | Hardy Street |  | <p><b>Significance</b></p> <p>The Railway Dam is of considerable historical significance for the integral role in running the steam trains.</p> <p><b>History</b></p> <p>The railway dam was constructed in the 1890s to catch water from the Sukey Hill run off to service the old steam engines. Water was fed into a tank near the railway line. It was originally built by Bob Henderson with a horse team and dam scoop. It is said that the dam had a capacity of 2.01 million gallons.</p> <p>The Cranbrook townsite was established where it is because of the water catchment from Sukey Hill. Extensions to the railway dam plus the overflow drain were dug with shovels and picks after the floods of 1922. A water tank, raised on timber pylons, was fed from the dam and from there water was pumped for the steam trains.</p> <p>The dam was further enlarged in 1950 by Jim Taylor from Narrikup and then again in 1971.</p> <p>The Water Authority continues to use the dam, and it becomes vital in years of drought as a surplus water supply. This occurred in 1968 when water restrictions were enforced and water had to be carted from the railway dam as a temporary measure</p> |

| 41 | new | <p>Frederick Square:<br/>Cranbrook Sporting Club (King Street frontage)<br/>The Precinct (east corner Glover Street)</p> | King Street |  | <p><b>Significance</b></p> <p>Frederick Square is of historical and social significance for the integral role of bringing the community together through the various sporting recreational, social and commemorative facilities that contribute to the well-being and inclusion of the Cranbrook community. Named in honouring the First school teacher, Maragaret Frederick, who initiated the sports ground and facilities in the town.</p> <p><b>History</b></p> <p>The first school in 1893 with J Clarke the teacher, was a different site. The official school opened in 1896. After World War One it moved to the recreation ground.</p> <p>The first public tennis courts were located on the east corner after a few years at Tom Edge's place with crushed ant nest courts. In the late 1950s the courts were relocated and upgraded with 4 courts at the corner of King and Grenfell, with an afternoon-tea shed. There were many competitions and tournaments. In 1974 new courts were included in the Greater Sports Ground project. With the demise of the memorial sportsground the tennis club relocated with the bowling club in Frederick Square.</p> <p>In 1903 Cedric Dunn established the Cranbrook Cricket Club with a cricket pitch in Frederick Square named after school teacher Margaret Frederick (1900-1902 in Cranbrook).</p> <p>The war memorial was originally located in Frederick Square. It was built by mothers of the fallen soldiers and an avenue of trees honoured the fallen.</p> <p>In 1922 sugar gums that were planted to form a guard of Honour in Frederick Square. Each tree was dedicated to one of the fallen in World War One. The trees all died after insecticide treatment.</p> |

| 42 | new | Cranbrook Primary School   | King Street          |  | <p><b>Significance</b></p> <p>Cranbrook Primary School has historical significance for its association with the education of children, the teachers and local families, and the resilience of the community to ensure education for the children.</p> <p><b>History</b></p> <p>The Plantagenet Road Board requested half time schools for Cranbrook and Tenterden in 1893. In Cranbrook settlers built a room that served as a school/church/hall that opened on 1 October 1893. In 1896 a new school was constructed in response their requests. In 1895 floods ruined their school room.</p> <p>In 1947 the school bus service was run by ST Rogers, effectively ending the small isolated school where locals had been contributing to teachers wages. The Cranbrook and Tenterden Schools remained and all others closed.</p> <p>In 1949, new classrooms were constructed in Cranbrook. The school reserve was upgraded in 1952 and there were so many students that the old school buildings were utilised. Teachers quarters in built in 1952 and in 1953 more classrooms.</p> <p>The schools that closed before and after World War Two were: Tingerup (1914-1924), Mortigallop and Haynesdale (1919-1943), Gordon River (1922-1942), Balmoral (1926-1928), and Woolonga, Aurora (1928-1942).</p> |

After the railway line was constructed, the sleeper industry expanded; Cranbrook had the abundance of timber, together with the export markets, the timber indutsry was strong through to the 1970s.</p> <p>Timber milling was an important industry. The timber created lots of dust but employed many people.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 44 | 6487 | Cranbrook Cemetery<br>SITE Nurse Kinsella's Grave | Newton Road |  | <p><b>Significance</b></p> <p>Cranbrook Cemetery represents a significant record of pioneers and generations of residents of the Cranbrook town and district with particular reference to Nurse Kinsella.</p> <p>The Cemetery evokes a sense of place, of commemoration. The memorials, palisades and railings evidence a range of designs and emotive inscriptions.</p> <p><b>History</b></p> <p>Nurse Kinsella was the first person buried in the cemetery when it was gazetted in 1933. The grave of Nurse Kinsella was recognised with a headstone in 2014.</p> <p>Susan Gabriel Kinsella was the first known resident nurse in the district and was responsible for acting as a midwife to many births. Her duties covered all aspects of sickness including the extraction of teeth with no pain killers at all. She also dealt with serious outbreaks of diseases such as 'Spanish' influenza and diphtheria which reached epidemic levels in 1919. She was a reassurance to many people confined to the area with no means of transport.</p> <p>In the early 1950s the boundary fence around the Cemetery was constructed by relief road workers.</p> |

In 1933, the Road Board agreed to Settlers Tank Reserve be allocated to the Cranbrook Golf Club. In 1934, 9 holes had been cleared, and Percy Kleemann built the club house. The 18 hole golf course completed in 1956.</p> <p>In c.1960 the RSL and Ladies Auxillary raised money causing controversy with what to do with the funds. Working bees took place to establish the RSL Bowling Club that opened in 1958 with club house in 1961.</p> <p>Jack Haynes and other RSL members began fundraisng for a club house for cricket, bowling and basketball, and in 1979 channeled into the establishment of the RSL Golf Club.</p>                                                                                                                                                                                                                                                       |
| 48 | new | Gateway to the Stirlings | Salt River Road |  | <p><b>Significance</b></p> <p>The Gateway to the Stirlings is a landmark in Cranbrook that is aesthetically pleasing and represents the community efforts to further develop the tourism potential of the region for to the community and visitors to the area.</p> <p><b>History</b></p> <p>The West Australian government introduced bus tours to the Stirlings during the wildflower season. The Bushmans Bazzar Committee, later the Cranbrook Toursit Promotion Committee, provided morning and afternoon teas amid wildflower displays for the bus tours. In 1975, the National Park Board formed the Stirling Range National Park and in 1979 the gateway was erected by the Cranbrook Apex Club who also built the lookout at Sukeys Hill.</p> <p>In 1966 a repeater mast was constructed to improve reception and the conversion of electricity from direct to alternating through the Kleemann company.</p> |

| 49 | 6484 | CBH Wheat bins & Blue Gum Tree | Salt River Road (opposite Hardy Street in the parking area of a co-operative bulk handling area) |  | <p><b>Significance</b></p> <p>The tree is a landmark, as are the CBH wheat bins that represent the primary industry of the region.</p> <p><b>History</b></p> <p>This tree is the last and only significant landmark where the old settlers and migrants lived in the early part of the century. These people were responsible for the maintenance of the railway line. Five houses were built on this site. They were made of sleepers in a vertical position with iron roofs. They were lined with a cement mixture and flattened kerosine tins. Migrants lived in tents and water supplied by trains from Lake Matilda to tanks along the railway line. The blue gum tree still provides shade for truck drivers who park in the area during grain season.</p>                                                                                                                                                                                                                                                                                                          |
| 50 | new  | Lenham Farm                    | Salt River Road                                                                                  |                                                                                     | <p><b>Significance</b></p> <p>Lenham Farm is historically significant in recognising an early pioneering family and the success of their business and livelihood.</p> <p><b>History</b></p> <p>In 1912, J.B Palmer and his family followed the Pope family who left England in 1911, to settle in the Cranbrook area. Lenham farm was named after the village of Lenham where they lived in England. JB Palmer bought Romney Marsh stud merino stock. He judged sheep shows all over the Australia. He was a noted breeder in Australia and in 1925 was Patron of Western Australian branch of the Australian Society of Breeders of British sheep. JB Palmer was Elders first agent in 1927, running the agency from the Lenham farm. In 1932 Fred Palmer died in a farm accident and only 7 weeks later JB Palmer died. Jean Palmer (nee Pope,) and Kath Gillam (nee Pope) both ran the Elder's agency, as three older Pope brothers were not interested, and the sheep were sold. A second 'cottage' was built on the farm and the Agency was run from there until</p> |

|    |     |                 |                 |  | <p>1940 when Jean married Frank Chandler. The Elders Agency was renamed Eldercot.</p> <p>The cottage was relocated and restored by Phil Walter, the local builder. The veranda of the cottage was the office.</p> <p>In 1940 Kath Gillam's husband Alf took over the Agency, operating from Gillans drapery shop in Ganthorne Street before the Grantham Road shop in 1968.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 51 | new | SITE Mine shaft | Salt River Road |  | <p><b>Significance</b></p> <p>The site of the mine shaft and the barite mineral is historically of value in representing mining ventures in the Cranbrook area.</p> <p><b>History</b></p> <p>Barite was discovered at the location in 1897, by local farmer J.H. Cox. As there was little market for the material at the time, it was not investigated further. Government geologist C.J.R. Le Mesurier sent a sample to be examined in 1912, which proved to be high-quality barite.</p> <p>A barite find occurred in Cranbrook in 1912. Mixed prospector and commercial mining were carried out during World War One. In the 1920s areas were pegged in the Sukey Hill area. Little substantial mining was found. The farmed area has likely concealed any historic shafts remain being in areas of forest on the upper slopes of ridges.</p> <p>The commercial mining was re-opened by Murray Kleemann, Sage Palmer and Colin Mitchell in the 1950s. It was successful for 5 years and again in the 1980s. A windlass device was used. The government geologist's report by F.R. Feldtmann stated the barite was finely crystalline opaque white, with irregular lenses of more coarsely crystalline translucent, and sometimes transparent barite.</p> <p>The country rock is fine grained pale reddish or</p> |

| <b>52</b> | new | Frankland River Primary School | 1 Evans Street |  | <p><b>Significance</b></p> <p>Frankland River Primary School has historical significance for its association with the education of the students and associations with local families.</p> <p><b>History</b></p> <p>In 1902, Frankland River and Kybellup were half time schools. In 1906 they closed as there was not the required 8 students. In 1908, house to house school was undertaken in Frankland River for a year.</p> <p>Franklands first school was at Alex Muir's Glen Valley homstead in c.1898, and another in c.1899 built by local men, for a church and meeting place.</p> <p>In 1899 Kybellup achieved a part-time school with 8 children in a gardeners house that was a room built specifically for 2 days a week with the Frankland teacher.</p> <p>In 1947 the school bus service was run by S.T. Rogers, effectively ending the small isolated school where locals had been contributing to teachers wages. The Cranbrook and Tenterden Schools remained and all others closed. In the 1950s school was held in the original town hall near the tennis courts, while the third school was built. The hall was demolished in c.1954.</p> |

| 56 | new | Poorrarecup Lake | Lake Poorrarecup Road |  | <p><b>Significance</b></p> <p>Lake Poorrarecup is of social value for the recreational and sporting activities it provides for the benefit of local and broader communities and visitors to the region. The historic significance of the community's efforts with regard to the sustainability of the environment of the lake.</p> <p><b>History</b></p> <p>Lake Poorrarecup is the largest lake in the Shire of Cranbrook and is popular for swimming and skiing during the summer months. Camping, change rooms and toilets are available on site. However, there is no potable water available at the lake.</p> <p>It has been a popular place. A lake improvement committee was established, and annual swimming lessons began in 1958, and women's change rooms built in 1959, a kiosk in 1961, and a New Years Day special promotion with over 2,500 people in 1963.</p> <p>The lake was stocked with perch fish. Rising water levels prompted moves to preserve the beach. Council reluctant to create a precedent for other lakes in the district with similar issues; Nunijup and Unicup at the time.</p> <p>Doris Haynes Memorial opened in 1967, at Poorrarecup Lake; she was the first teacher in 1919 at Haynesdale and Frankland River schools. In 1976 a caretaker in a caravan was on the site. In 1977, no fish due to salt content of the water. Salinity issues throughout the region.</p> <p>In 1978 the state government banned all clearing and enacted the Country Areas Water Supply Act. There was outrage in the community-the Unicup region and other settlements had conditional purchase that required them to clear the land.</p> <p>The following summer there were water restrictions throughout. The Railway Dam in Cranbrook was taken over by Public Works Department to augment the town supplies.</p> |

Race days were well supported by locals and visitors. Mt Barker police were in attendance, chained offenders to a large log. Busy bees and community co-operation contributed to the success. The course was around the edge of the swamp while the judge sat in a paperbark tree, and the jockeys were weighed on suspended scales. A race club ball was a great event. Frankland River Race Club ended in c.1958.</p> |

Alex Moir's barn hall events were popular until they were refused. The site of the original hall is in Marlock Street where the current caravan park is located.</p> <p>The existing Frankland Hall was built in 1954. It has had a number of additions over time but still fulfills a social function for the town and district.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 70 | new | Community Resource Centre | 55 Wingebellup Road |  | <p><b>Significance</b></p> <p>Frankland River Community Resource Centre has social value as the hub of the communities of Frankland River and the outlying regions, providing all manner of services to the community and visitors.</p> <p><b>History</b></p> <p>Frankland was named by the surgeon Thomas Braidwood Wilson in 1829. Wilson had left Albany to explore while his ship, Governor Phillip, was being repaired. He named Frankland River and Mount Frankland after George Frankland who was the Surveyor general in Van Diemen's Land (Tasmania) in 1829.</p> <p>Wilsons explorations helped to show that conditions inland were suitable for farming and settlers soon began to move to these inland areas such as Frankland River. The area was settled in 1857. In 1909 a hall and school were built, the town was not declared until 1947. The town and region were known as Frankland River until 1935, when after the post office was built, it was shortened by the postmaster to 'Frankland' because Frankland River was too long to fit on signs and documents. In 2007 it was renamed Frankland River again.</p> |

| <b>82</b> | new | SITE Police barracks ruins | West side south of the river |  | <p><b>Significance</b></p> <p>The site of the Police barracks ruins is of historical significance for the associations with the earliest days of the Albany Road, and the convicts.</p> <p><b>History</b></p> <p>The Gordon River Bridge was originally a cart crossing and a place to get fresh water. The convicts built the barracks in 1866, between Albany and the Swan River settlement (Perth). The police barracks ruins was one of 12 barracks along the Albany/Perth Road.</p> <p>The convicts cropped an acreage to feed the horses that stopped over at the barracks.</p> <p>A flood in 1917 destroyed the barracks.</p> |
| <b>83</b> | new | SITE Stone house ruins     |                              |  | <p><b>Significance</b></p> <p>The site of the stone house is of historical significance for the associations with the Naphthali brothers Alf and Angus.</p> <p><b>History</b></p> <p>In 1921 the Naphthali brothers Alf and Angus built a stone house to the southeast of the barracks, using stone from the barracks ruin. They were the first Apiarists in the region and cut and sold timber. In 1952 Percy Lawrence acquired the property. He worked for the road board, and planted the avenue of trees on the highway into the town of Cranbrook</p>                                                                           |

| 85 | 6500 | Wonnenup Homestead and outbuildings | Cranbrook -Boyanup Brook Road |   | <p>Significance</p> <p>Wonnenup Homestead and outbuildings have significant historical value for the associations with Andrew Walton, in one of the earliest homesteads still remaining in the district, a Ticket-of-leave man who built his 1862 house.</p> <p>History</p> <p>Built by Andrew Walton in 1862, Wonnenup is one of the earliest homesteads in the district. It is very significant in that it was convict built. It can also be linked to over 100 years of occupation by the Walton family who were very early graziers in the district. Andrew Walton himself was a ticket-of-leave man who worked as a shepherd for John Hassell in the 1850's. He later took up his own lease of 10,000 acres at Wonnenup (originally part of Hassell's leasehold) where he built the house and outbuildings. It is unclear when Walton left the property, but it reverted to the Government, and the roof was replaced in 1906. Later the house was deserted until Albert Weller purchased the house and forty acres. In 1908 he took up 1000 acres alongside the house. There were 12 acres cleared round the house, surrounded by a slab fence. The sheep were locked up every night to keep them away from dingoes.</p> <p>Situated beside the Gordon River, this very early homestead was built by convicts in 1862. The house and sheds were located on forty acres of free hold land. The house was built of bricks made on the property, and timber felled with a broadaxe and</p> |

| <b>86</b> | new | SITES Returned servicemen's farms |  |                                                                                     | <p><b>Significance</b></p> <p>Kybellup has significant historical value for the associations with AC Gardiner, and later, the returned servicemen at Bokerup, Riversdale and Kybellup. Kybellup was mostly virgin bush that was divided into separate farms.</p> <p><b>History</b></p> <p>AC Gardiner had settled in the area, establishing a store at Kybellup. Later it closed and he purchased Suzanne Peacock's store in 1904, and in Tenterden where he engaged a manager. He sold his Kybellup property to Henry Watson-Williams in 1908. Anglican church services took place in Cranbrook, Tenterden, Franklin River and Kybellup.</p> <p>During the depression sustenance gangs camped on the property. Harry Cade Childs one of the farm hands in 1927 provided sheep for the hungry gangs.</p> <p>The government bought the property in 1947. From SG Phillips. Some of the land was for reserves and the rest was for perpetual leases or conditional purchase for returned servicemen at Bokerup (21) predominately, but also Riversdale (3) and Kybellup (9). Kybellup was mostly virgin bush.</p> |

| 89 |              | Lake Nunijup Hall                                                                  | Martagallup Road                                         |  | <p><b>Significance</b></p> <p>Lake Nunijup Hall is of historical value as the Hassell family's lease in the 1880s, built for the sheep wash, and in the late 1950s developed by the local progress association to a recreational place with beach sand, water skiing and swimming lessons for the benefit of the community.</p> <p><b>History</b></p> <p>The Hassell family of Kendenup leased the lake area in the 1880s and likely built the sheep wash. The sheep were washed before shearing and they would swim from the swim area to the north edge.</p> <p>In 1958, tennis courts and a swimming place were developed at the lake. Loads of sand were carted from the beach.</p> <p>Water skiing and swimming lessons took place at the lake. In 1974, after ongoing confusion over spelling, Nunijup was agreed upon.</p> |

| 92 | new | SITE Pootenup Railway Siding | Great Southern Highway |  | <p>Significance</p> <p>The site of Pootenup Railway Siding on the 1889 Great Southern Railway between Albany and Beverley, has significant historical significance as the catalyst for the development of the district making connections that impacted both economically and socially.</p> <p>History</p> <p>It was proposed to build a railway line to be known as the Great Southern Railway Line to connect the port of Albany with the Swan River Settlement (Perth)</p> <p>In January 1892, the Government awarded the boundaries of Cranbrook and Tenterden, defining towns, streets and reserves. Tenterden was the largest settlement at that time.</p> <p>By 1894, Cranbrook dominated. In 1896 the Government took over the railway line after Land Corporations financial difficulties.</p> <p>The Government contracted Anthony Hordern's West Australian Land Company Ltd for the construction of the Beverley to Albany section.</p> <p>Railway construction gangs were established at Pootenup and Tenterden. Hugh Climie supplied food to the workers, and established stores including one at Round Swamp. Tenterden area provided the timber for the railway ballast. Water was not available at Tenterden area and Cranbrook became</p> |

| 95 | new | SITE Tenterden Townsite | Ronald Shaw & Lunt roads |  | <p><b>Significance</b></p> <p>Tenterden townsite is of significant historical significance in representing the early development and demise when Cranbrook had the valuable water for the railway operations.</p> <p><b>History</b></p> <p>The townsite is located at a siding on the Great Southern Railway line. The siding was established in 1891 and shortly afterward the government made land available for agricultural purposes in the area. The town was gazetted in 1893 and is named after a town in Kent.</p> <p>Tenterden was the first place for picnic horse races in 1891, and the first formal race after a proper course was laid in 1892 with the first meeting on 17 February 1892 – a gala occasion. The first cricket matches took place in the paddock next to the inn in c.1880s.</p> <p>In 1904 Tenterden got a one teacher school. Round Swamp (Tenterden) was still the focus of the district at that time.</p> <p>Commercial potato growing took place in Tenterden. In 1891, The Lodge of the Independent Order of Oddfellows (Lodge #96) became operational in March 1891 and were very active in the community. The community hall was used as a hall for the Defence Department in 1910.</p> <p>In 1910s Mrs Stirling's store of bushpoles and corrugated iron (even the counter) was successful and traded with the hunters.</p> <p>On 27 December 2003, two live power lines clashed and shorted out, resulting in a large bushfire. Two local women died in the fire. Crop, property and stock damage was estimated to be in the millions of dollars. In December 2005, Western Power was</p> |

| <b>96</b> | 610 | <p>Travellers' Rest Inn (former)<br/> Yenmor Farm<br/> SITE-Cobb &amp; Co</p> | Albany Highway |  | <p><b>Significance</b></p> <p>The former Travellers' Rest Inn is of significant historical and social significance in representing the early development of Round Swamp when Toovey took up a land grant in 1850, and the subsequent development of the inn on Albany Road, that was the stopover, social hospitality and events eventually delicensed in 1926.</p> <p><b>History</b></p> <p>A simple roughly hewn stone building was a hostelry opened in Balgarup (Round Swamp) by Lomas Toovey when he received a land grant in c.1850. In 1885, his daughter Florence and son-in-law John Gillam took over, and Gillam was granted a license in 1886 and named the Travellers Rest Inn. It was a popular stopping place for those travelling on the Albany-Perth Road. At the Inn they could get food, accommodation and liquor. The Inn was also used for social gatherings within the community, even for church services. Many interesting stories accompany the history of the Travellers Rest Inn, which was delicensed in 1926, and became part of Toovey's Yenmor Farm named after their Romney Sheep Stud - Yenmor Romney backwards.</p> <p>Most meetings took place in private homes. In 1904 the progress reactivation took place in the inn in 1904.</p> |

| 103 | new | SITE Tenterden Railway Siding | Lomas Street, Trimmer Street | <p>Significance</p> <p>The site of Tenterden Railway Siding on the 1889 Great Southern Railway between Albany and Beverley, has significant historical significance for the development of the district making connections that impacted both economically and socially.</p> <p>History</p> <p>It was proposed to build a railway line to be known as the Great Southern Railway Line to connect the port of Albany with the Swan River Settlement (Perth)</p> <p>In January 1892, the Government awarded the boundaries of Cranbrook and Tenterden, defining towns, streets and reserves. Tenterden was the largest settlement at that time.</p> <p>In 1893 Tenterden (Round Swamp) had a town and railway siding, school, post office, Climie's Store and Gillam's Inn. Cranbrook only had a railway station-the first building in the town. By 1894, Cranbrook dominated with 19 houses, and by 1897, 40 houses, platelayers, hotelier, stationmaster, gardeners, shopkeepers, farmers and graziers.</p> <p>In 1896 the Government took over the railway line after Land Corporations financial difficulties.</p> <p>The Government contracted Anthony Hordern's West Australian Land Company Ltd for the construction of the Beverley to Albany section.</p> <p>Railway construction gangs were established at Pootenup and Tenterden. Hugh Climie supplied food to the workers, and established stores including one at Round Swamp. Tenterden area provided the timber for the railway ballast. Water was not available at Tenterden area and Cranbrook became the main source of water and landform for the railway station, the construction and the railway, to the detriment of Tenterden that was the main centre of the district at that time.</p> |

| 104 | 613 | St Mildred's Anglican Church | Trimmer Street |  | <p><b>Significance</b></p> <p>St Mildred's Anglican Church is historically, socially and spiritually significant in representing the resilience of community effort and the pastoral services in the Tenterden community.</p> <p><b>History</b></p> <p>St Mildred's Anglican Church was consecrated in May 1927. Prior to that time monthly services were held at Tenterden; first in the school and then in the Tenterden Agricultural Institute. After 1910, when Rev H G Barnacle was appointed to conduct the monthly service, efforts were made to start a building fund.</p> <p>Anglican church services took place in Cranbrook, Tenterden, Frankland River and Kybellup. The First World War intervened, so all funding went to support the Red Cross and the war effort. In the 1920s, after a succession of clergymen, a building committee was appointed, consisting of the Rector Edward Wornum, L S Perkins and W Tufnell. A suitable block of land was obtained, and a quarry was opened up. Stone was quarried and carted to the site by voluntary labour. In 1926 plans were drawn up by Mr F Coote and the tender was awarded to Mr AE Rodgers. The foundation stone was laid by H J Townsend in December 1926. The inscription reads;</p> <p style="text-align: center;">TO THE GLORY OF GOD<br/> and in memory of those men who fell in the Great<br/> War 1914-18<br/> This stone was placed here by<br/> H J Townsend J P<br/> Dec 22nd, 1926</p> <p>St Mildred's Church was named after St Mildred's</p> |

|     |     |                  |                                  |  | <p>History</p> <p>In 1880, James Tunney worked as commisiariat in Albany and worked as a sandalwood carter. His hut was commonly known as 'Jim Tunney's Place". It served as an outpost for the police on their routine patrols checking employed ticket-of-leave men. In 1887 he took over the email run from William Weir, enrolled pensioner guard who has the Gordon River post office and coachhouse. He ran the mail to and from Gordon River.</p> <p>Tunnys was a popular centre in the district in the early 1900s. It was the centre of collecting and checking mail, linesmen and police on patrol calling in.</p> <p>They had the first phone and delivered messages.</p>                                                                                                                                                                                                                                                       |
| 108 | new | SITE Tunney Hall | Albany Highway<br>Full-over area |  | <p>Significance</p> <p>The site of the Tunney Hall is of historic and social significance that demonstrates the settlers' efforts to retain their social venue, finally out of their control and demolished.</p> <p>History</p> <p>The hall was built by Phil Walter in 1913. Dances were popular with camping overnight. During the depression the insurance lapsed and the hall fell into disrepair. The decided the sell the piano to raise funds, the community rallied and the hall was revived. In 1939 the hall finances were an issue again and in 1941 the Cranbrook Road Board took it over. The community objected and called for a Progress Association with subscriptions to fund the hall conditions, and an annual event and was demolished due to vandalism. \$800 was donated to a memorial park development commemorating the original surveyor Chalrles Bowler (1910). Tunney Memorial Park opened in October 1976.</p> |

| 117 | 6503 | Yeriminup Homestead                                                                                                                                                                                                                      | Yeriminup Road                                                                        |  | <p>Significance<br/> Yeriminup Homestead is of considerable historic significance for the association with the Egerton-Warburton family's early settlement and ongoing development and contribution to the community since the 1840s.</p> <p>History<br/> GE Egerton Warburton took up land in Yeriminup in the 1840s, with a grant in 1857. His son Horrace took up land.</p> <p>Yeriminup was one of the first properties in the area to be settled in the 1840s. It is linked to a well-known settler family of the district, the Egerton Warburton's.</p> <p>Constructed around 1857 when they got a grant.</p> <p>Yeriminup was built of clay bricks. The ceilings were cut with a broad axe and the roof was shingle. Of the original building, three rooms remain. The roof was shingle and was later covered with corrugated iron.</p> |

|     |      |                              | (east side of the south section of the lake)<br>Hay Location 31 |                                                                                      | <p>Yeriminup sheep wash is of historic significance for the association with the Egerton-Warburton family and their farming enterprise.</p> <p><b>History</b></p> <p>When sheep were shepherded in the bush, wool became dusty with charcoal owing to the bush being burnt off to give new growth for grazing. To remove the charcoal and dirt before shearing, the sheep were driven through sheep washes created in rivers or pools.</p> <p>This is the sheep wash for Yeriminup, the homestead of the pioneering Egerton Warburton family. It was also used by neighbouring landowners. There are other examples of these in the district such as Washpool on the Frankland Road near the Boyup Road turnoff.</p> <p>The sheep wash was created by driving wooden posts into the river pool to form a raceway. The sheep to be washed were then driven through the raceway.</p> |
| 119 | 6501 | Yeriminup Reserve & Cemetery | Yeriminup Road                                                  |  | <p><b>Significance</b></p> <p>Yeriminup Reserve &amp; Cemetery represents a significant record of pioneers of Yeriminup.</p> <p>The Cemetery evokes a sense of place, of commemoration. The memorials, palisades and railings evidence a range of designs and emotive inscriptions.</p> <p><b>History</b></p> <p>Yeriminup Reserve &amp; Cemetery was part of an Aboriginal Reserve that was an important stopping place for the Bibbulmun tribe. It is now an A Class Reserve, vested in the Shire of Cranbrook for the purposes of a Public Cemetery. The area where the Cemetery was once significant as a bush Cemetery for the Gordon River area, and in recent times it has been re-opened as a public cemetery by the Shire.</p>                                                                                                                                            |

| 120 | new | Dwangup Aboriginal burial ground | Yeriminup Road |  | <p><b>Significance</b></p> <p>Dwangup Aboriginal Burial Ground is of considerable Aboriginal cultural significance (Registered site) as a traditional burial and meeting place for several groups in the Noongar nation and has historical heritage significance as the site of a military post. It also represents a significant record of the Bibbulmun tribe.</p> <p><b>History</b></p> <p>Known to the Noongar community as Dwangup, this significant cultural site is where tribal boundaries meet for three different groups of the Noongar nation; the <i>Menang</i> (Albany area), <i>Goreng</i> (Stirling Ranges area) and <i>Kaneang</i> (west of Cranbrook and Kojonup area). It was an important meeting place with a permanent water source. From 1836 to 1839 a military outpost was established adjacent to the reserve due to perceived tribal fighting. The local Elders explained that it is an important law ground, to those who had broken the Noongar laws.</p> <p>The Aboriginal Reserve that was an important stopping place for the Bibbulmun tribe</p> <p>The reserve has been traditionally used as a burial ground as evidenced by 41 burial mounds, scar trees and remnants of typical grave elements such as spears, boomerangs, woomeras and stone implements.</p> <p>Dwangup Burial Ground is integral to the Shire of Cranbrook's Nature Reserve and included on the Cranbrook Conservation Trail.</p> <p>The area of the Aboriginal burial ground is a sacred site of Aboriginal Cultural Heritage significance. It is across the gully from the public Cemetery.</p> |

| 121 | 6485 | Drovers Dam         | Yeriminup Road |  | <p>Significance</p> <p>Drovers Dam is historic in terms of representing the way of life in the early farming practice, transporting cattle and sheep by foot, with the necessity of rest stops for watering the animals, finding a camp site that provides the water was critical.</p> <p>History</p> <p>Stock dam in the 1900s. This type of dam made possible the moving of stock around the district. It was an important aspect of the grazing industry. The holding yards next to the dam were used to hold stock when they were being moved from one location to another. Farmers bringing stock to sales from long distances would travel to holding paddocks, stay overnight, then continue on into town the following day. This enabled the stock to arrive at the sales in reasonable condition. The dam and holding yards are in a bush setting. A water pipe and a cement trough, surrounded by bush timber rails, can still be seen. The dam is one of three dams constructed in approx. 1928 for watering stock moving around the district. The water was carted from the dam by bucket, then poured into the top of the pipe which led to the trough.</p> |

|  | new | Sandalwood tracks                      |  |  | Bullock wagons hauling sandalwood through Chester Pass, Red Gum Pass, Toll Pass and Round Swamp to Albany Highway to go south to the ships. After the railway came through in 1891, timber was transported to Pootenup siding or along Salt River Road to Cranbrook Station. |

## 6.0 HERITAGE LIST

### Categories 1 & 2 places

An important part of the recognition and understanding of cultural heritage significance of a place, is that some guidance is provided to the owners, managers and statutory authority, to respond to that assessed significance.

Categories have been determined relevant to the assessed level of significance for each place. Implications for each recommendation are also summarised. The Heritage List is subject to the provisions of the Local Planning Policy.

The Heritage List is comprised of:

**Category 1** A place of exceptional cultural heritage significance to Shire of Cranbrook and the state of Western Australia, that is either in the Heritage Council of Western Australia's (HCWA) Register of Heritage Places or worthy of consideration for entry into the Register.

#### Tenterden Hall

**Category 2** A place of considerable cultural heritage significance to Shire of Cranbrook that is worthy of recognition and protection through provisions of the Shire of Cranbrook's Local Planning Policy.

#### All Places listed hereunder except Tenterden Hall

| 5   | 608     | St Oswald's Anglican Church and Rectory | 17 Climie Street<br>(Great Southern Highway) | <p>Significance</p> <p>St Oswald's Anglican Church and Rectory is historically, socially and spiritually significant in representing the resilience of community effort and the pastoral services in the Cranbrook community.</p> <p>History</p> <p>The first Anglican service in Cranbrook was on Easter day in 1906 when Reverend Stanfield arrived on horseback ministering at Cranbrook, Ballochmyle and Tenterden. Funds were raised from the monthly dances. Plans were made for a church in 1913 as church services continued in Cranbrook, Tenterden, Franklin River and Kybellup. World War One delayed the plan. A foundation stone was laid in February 1918. Weekly services continued from the Mt Barker's Parish clergymen.</p> <p>St Oswald's Church was built in 1917-18 of local stone with brick quoining at the corners and around the windows. War time shortages made roofing iron unobtainable, so some good second-hand iron was obtained from Kalgoorlie.</p> <p>The Church was built with considerable community effort.</p> <p>The first service at St Oswald's was conducted by Rev H G Barnacle on 10 March 1918. The Cranbrook-Tambellup Parochial District was formed in 1954, and the first rector was Rev Todhunter.</p> <p>The rectory was built in 1955.</p> <p>The Patronal Festival and Jubilee of St Oswald's Church were held on 11 August 1968, fifty years after the first service in 1918.</p> <p>Extensions to the east side of the church were added in keeping with the original style in 1977. The nave was extended to the west, and a suitable entrance was provided. A vestry and a meeting room was added to the southeast wall.</p> |
| 19  | 15699   | Cranbrook War Memorial                  | Gathorne St<br>(railway reserve)             | <p>Significance</p> <p>The War Memorial is of considerable historical and social significance to the community in commemoration of those who served in world wars and other conflicts. The memorial also has aesthetic significance, set in the garden setting that is cared for by the community.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |     |                                     |                 | <p>The memorial is a revered site where significant remembrance events take place. It is highly valued by the local community, many of whom are related to those who are commemorated.</p> <p>History</p> <p>The war memorial was originally located in Federation Square. It was built by mothers of the fallen soldiers and an avenue of trees honoured the fallen. In 1922 sugar gums were planted to form a guard of Honour in Federation Square. Each tree was dedicated to one of the fallen in World War One.</p> <p>The trees all died after insecticide treatment.</p> <p>In the late 1930s the Returned Services men's League was revived in Cranbrook. Meetings took place in the hotel or the Road Board offices.</p> <p>By 1950 the War Services Land Settlement scheme was established for returned soldiers. In 1956 the Roll of Honour was installed in the new Memorial Hall. When the old hall was demolished in 1954, a motion was put to relocate the war memorial to a more prominent location. Permission was required from the Railways. It was granted in 1955 and the memorial was relocated to this site by volunteers.</p> <p>In 1960 the rose garden was established and Jack Gardiner who looked after it was made Warden of the memorial. The RSL and Ladies Auxiliary raised money causing controversy with what to do with the funds. Working bees took place to establish the RSL bowling club that opened in 1958 with club house in 1961.</p> <p>Jack Haynes and other RSL members began fundraising for a club house for cricket, bowling and basketball, and in 1979 channeled into the establishment of the RSL Golf Club.</p> |
| <b>22</b> | new | Cranbrook Memorial Hall             | Gathorne Street | <p>Significance</p> <p>Cranbrook Memorial Hall is of aesthetic, social and historical significance as a fine example of Interwar architecture with art deco influence, as the place of socialising and its history that evidence changes over time of ways of life that contribute to the community of Cranbrook and town and district.</p> <p>History</p> <p>The original Cranbrook Hall was built in 1908 by Lunts. The Memorial Hall constructed in 1957 presents an Interwar architectural style influenced by the art deco of the period. It is a very fine example.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>23</b> | 606 | Road Board Office and hall (former) | Gathorne Street | <p>Significance</p> <p>The former Cranbrook Road Board building and hall is of aesthetic, social and historical significance as a fine example of the use of local stone, as the place of civic associations and management of the town and district, and socialising. Its history evidence changes over time of ways of life that contribute to the community of Cranbrook and town and district.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|    |      |                                                                             |                 | <p>History</p> <p>The Road Board Office was reputedly built in 1908 from local stone sourced from several farms in the area.</p> <p>Cranbrook Road Board was established in 1926 with JM Woulfe the first Chairman when it became its own entity separate from the Plantagenet Road Board. Records show there was a timber addition in the 1940s later replaced by bricks.</p> <p>The advent of Shire of Cranbrook in 1961 prompted the new Shire offices in 1967.</p> <p>Since then, it has been used for a number of purposes over the years. It housed the Public Library and at one time it was altered to accommodate a doctor's consulting rooms.</p>                                                                                                                                                                                                                                                                        |
| 29 | 6496 | Cranbrook Stationmaster's House (former)<br>Cranbrook Museum                | Gathorne Street | <p>Significance</p> <p>The former Cranbrook Stationmaster's House is of considerable historical significance as an integral element of the 1889 Great Southern Railway between Albany and Beverley, contributing to the further development of the district, economically and socially, and representing a way of life no longer practiced.</p> <p>History</p> <p>This was one of the first houses, and the first brick house, to be built in Cranbrook. It is the oldest house still standing in the town. The house was built soon after the completion of the Great Southern Railway in 1889</p> <p>Situated opposite the Hotel and close to the Railway Station, it was built for the Station Master. The longest serving Station Master to live in the house was David Borrett, from 1952 to his retirement in 1984.</p> <p>A Fettler's cabin was placed close to the house at the back to act as a bedroom in the 1970s.</p> |
| 30 | new  | Railway Station Group<br>Railway Station & Platform<br>Loading ramp & crane | Gathorne Street | <p>Significance</p> <p>The site of original Cranbrook Railway Station and c.1960s railway station, including the platform, ramp and crane, on the 1889 Great Southern Railway between Albany and Beverley, has significant historical significance as the catalyst for the development of the town and district making connections that impacted both economically and socially.</p> <p>History</p> <p>It was proposed to build a railway line to be known as the Great Southern Railway Line to connect the port of Albany with the Swan River Settlement (Perth)</p> <p>The Government proosed a system of giving grants of land along the route to the builders of the railway at a number of acres per mile of line constructed. Land Between Fremantle and Beverley was already taken up, the proposal was for the Albany to Beverley connection.</p>                                                                         |

|    |     |                 |                                                                 | <p>In January 1892, the Government awarded the boundaries of Cranbrook and Tenterden, defining towns, streets and reserves. Tenterden was the largest settlement at that time.</p> <p>In 1893 Tenterden (Round Swamp) had a town and railway siding, school, post office, Climie's Store and Gillam's Inn. Cranbrook only had a railway station-the first building in the town. By 1894, Cranbrook dominated with 19 houses, and by 1897, 40 houses, platelayers, hotelier, stationmaster, gardeners, shopkeepers, farmers and graziers.</p> <p>In 1896 the Government took over the railway line after Land Corporations financial difficulties.</p> <p>The Government contracted Anthony Hordern's West Australian Land Company Ltd for the construction of the Beverley to Albany section.</p> <p>Railway construction gangs were established at Pootenup and Tenterden. Hugh Climie supplied food to the workers, and established stores including one at Round Swamp. Tenterden area provided the timber for the railway ballast. Water was not available at Tenterden area and Cranbrook became the main source of water and landform for the railway station, the construction and the railway, to the detriment of Tenterden that was the main centre of the district at that time.</p> <p>The railway opened in 1889.</p> <p>On the east side of the railway line in Cranbrook there were seven fettlers houses opposite the railway station.</p> <p>In 1899 Cranbrook was declared a gazetted townsite.</p> <p>Two trains a day passed through with on demand stops only at Pootenup and Tenterden.</p> <p>By the 1960s, rail transport was having increasing difficulty competing with road transport. In 1978, the last passenger train ran from Albany to Perth.</p> |
| 31 | 605 | Cranbrook Hotel | 29 Gathorne Street (North corner of Gordon Street intersection) | <p><b>Significance</b></p> <p>The Cranbrook Hotel is of considerable historic, aesthetic and social significance as the only two storey building in Cranbrook, it is a substantial landmark opposite the Railway precinct and makes a significant contribution to the streetscape and townscape of Cranbrook.</p> <p>The development of the hotel since 1889 is testimony to the owners and publicans, and the community who have socialised and supported the hotel and the changes over time. It is valued for the services that contributed to the Cranbrook community.</p> <p><b>History</b></p> <p>The first Cranbrook Hotel was built in 1889 for George Dunn his wife Selina who was one of TM Gillam's daughters of the Porongurups, were the first owner licensees of the modest, corrugated iron clad building.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|    |     |                                 |                                                            | <p>The Cranbrook Hotel was conveniently located opposite the railway station. The hotel was a centre point for local meetings as well as a place to accommodate weary travellers and teamsters. Early in the 1900s, the Salt River area (east) was pioneered and settled. The settlers and sandalwood carters came to Cranbrook with their teams and wagons as this was the nearest rail head to the Port of Albany.</p> <p>The hotel has connections with some well-known local people. The Williamson family owned the freehold after 1924. When the hotel was rebuilt the bricks for the building were made on their farm. Phil Walters, a World War One veteran, helped with work on the new hotel. His dog Softy's paw prints are still visible on the veranda concrete.</p> <p>In 1907, AC Gardiner acquired the Cranbrook Hotel from Dunn and replaced the original hotel with a brick construction. In 1910 he sold Cranbrook Hotel to Frederick Moyle. In 1928 local bricks were used in two storey additions that were made by were made in 1928 by the owner J L Williamson. The wide first-floor veranda wrapped the corner. Various extensions have been added to the rear of the building.</p> <p>Jack and Elise (nee Newton) were the hotel publicans between 1953 and 1962.</p> <p>The hotel is still part of the life of the local people, and it continues to provide accommodation for tourists and itinerant workers.</p>                       |
| 36 | 607 | St Anne's Roman Catholic Church | 22 Gordon Street (East corner of King Street intersection) | <p><b>Significance</b></p> <p>St Anne's Roman Catholic Church is historically, socially and spiritually significant in representing the resilience of community effort and the pastoral services in the Cranbrook community.</p> <p><b>History</b></p> <p>Funds were raised in Cranbrook, Tenterden, Frankland River and Pootenup. It was paid and owned by the people. The construction of this building was due to local fund raising by parishioners whose dedication made it possible. They included the Toovey Family, Mrs Jean Kleemann, Mrs Rene Johnston, Mr and Mrs Togno, Mr and Mrs Phillips and the Devine family who travelled in from Frankland for every service. Father Gilroy was the first Minister. Gnowangerup supported the Borden Church, so Cranbrook joined the Mt Barker Diocese. Every 5<sup>th</sup> Sunday (3 times a year), services were held in the Tenterden Hall. The priest from Albany was accommodated in Round Swamp Inn.</p> <p>The construction of this building was due to local fund raising by parishioners whose dedication made it possible. They included the Toovey Family, Mrs Jean Kleemann, Mrs Rene Johnston, Mr and Mrs Togno, Mr and Mrs Phillips and the Devine family who travelled in from Frankland for every service. Fund raising began in 1929, and town Lots 77-78 were purchased from Mr A P O'Donnell for the sum of £50. Mr G Duckett. of Mount Barker was contracted to build the timber framed</p> |

|    |      |                                                                                                                  |              | <p>weatherboard church for £525. The building was completed and opened in May 1939 by His Grace. Archbishop Prendiville of Perth. It was dedicated to St Anne, Mother of the Virgin Mary. The first priest was Rev Fr M Holohan. Mass was celebrated once a month in the new church. Previously Mass was celebrated once a month at Tenterden in the local hall. In the early 1990s a plan to relocate the church to Albany was opposed by local parishioners on the grounds that it had been financed and built by Cranbrook people, and so should remain there. The bishop upheld the objections, and so the church continues to be used to celebrate Mass once a month.</p> <p>The vestry appears to be an addition. The windows and entrance doors are gothic style. The facades in each section are adorned with timber gables, and at the apex of each (5) is a hand carved cross, and handcrafted wooden furnishings, all carved by Phil Walters.</p>                                                                                                                                                                                                                                       |
| 40 | 6495 | Old Railway Dam Pump Dam                                                                                         | Hardy Street | <p><b>Significance</b></p> <p>The Railway Dam is of considerable historical significance for the integral role in running the steam trains.</p> <p><b>History</b></p> <p>The railway dam was constructed in the 1890s to catch water from the Sukey Hill run off to service the old steam engines. Water was fed into a tank near the railway line. It was originally built by Bob Henderson with a horse team and dam scoop. It is said that the dam had a capacity of 2.01 million gallons.</p> <p>The Cranbrook townsite was established where it is because of the water catchment from Sukey Hill. Extensions to the railway dam plus the overflow drain were dug with shovels and picks after the floods of 1922. A water tank, raised on timber pylons, was fed from the dam and from there water was pumped for the steam trains.</p> <p>The dam was further enlarged in 1950 by Jim Taylor from Narrikup and then again in 1971. The Water Authority continues to use the dam, and it becomes vital in years of drought as a surplus water supply. This occurred in 1968 when water restrictions were enforced and water had to be carted from the railway dam as a temporary measure</p> |
| 41 | new  | Federation Square:<br>Cranbrook Sporting Club (King Street frontage)<br>The Precinct (east corner Glover Street) | King Street  | <p><b>Significance</b></p> <p>Federation Square is of historical and social significance for the integral role of bringing the community together through the various sporting recreational, social and commemorative facilities that contribute to the well-being and inclusion of the Cranbrook community.</p> <p><b>History</b></p> <p>The first school was at this site in 1893 with J Clarke the teacher. The official school opened in 1896. After World War One it moved to the recreation ground.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|    |      |                                                   |             | <p>The first public tennis courts were located on the east corner after a few years at Tom Edge's place with crushed ant nest courts. In the late 1950s the courts were relocated and upgraded with 4 courts at the corner of King and Grenfell, with an afternoon-tea shed. There were many competitions and tournaments. In 1974 new courts were included in the Greater Sports Ground project. With the demise of the memorial sportsground the tennis club relocated with the bowling club in Federation Square.</p> <p>In 1903 Cedric Dunn established the Cranbrook Cricket Club with a cricket pitch in Federation Square, named after School teacher Margaret Frederick (1900-1992 in Cranbrook)</p> <p>The war memorial was originally located in Federation Square. It was built by mothers of the fallen soldiers and an avenue of trees honoured the fallen. In 1922 sugar gums that were planted to form a guard of Honour in Federation Square. Each tree was dedicated to one of the fallen in World War One. The trees all died after insecticide treatment.</p>                                                                                                                                                                                                                       |
| 42 | new  | Cranbrook Primary School                          | King Street | <p><b>Significance</b></p> <p>Cranbrook Primary School has historical significance for its association with the education of children, the teachers and local families, and the resilience of the community to ensure education for the children.</p> <p><b>History</b></p> <p>The Plantagenet Road Board requested half time schools for Cranbrook and Tenterden in 1893. In Cranbrook settlers built a room that served as a school/church/hall that opened on 1 October 1893. In 1896 a new school was constructed in response to their requests. In 1895 floods ruined their school room.</p> <p>In 1947 the school bus service was run by ST Rogers, effectively ending the small isolated school where locals had been contributing to teachers wages. The Cranbrook and Tenterden Schools remained and all others closed.</p> <p>In 1949, new classrooms were constructed in Cranbrook. The school reserve was upgraded in 1952 and there were so many students that the old school buildings were utilised. Teachers quarters were built in 1952 and in 1953 more classrooms.</p> <p>The schools that closed before and after World War Two were: Woolonga, Aurora (1928-1942), Gordon River (1922-1942), Mortigallop and Haynesdale (1919-1930), Tingerup (1914-1924- Balmoral 1926-1928)</p> |

|    |     |                          |                            | <p>The Cemetery evokes a sense of place, of commemoration. The memorials, palisades and railings evidence a range of designs and emotive inscriptions.</p> <p>History</p> <p>The grave of Nurse Kinsella has no headstone or reference. Nurse Kinsella was the first person buried in the cemetery when it was gazetted in 1933.</p> <p>Susan Gabriel Kinsella was the first known resident nurse in the district and was responsible for acting as a midwife to many births. Her duties covered all aspects of sickness including the extraction of teeth with no pain killers at all. She also dealt with serious outbreaks of diseases such as 'Spanish' influenza and diphtheria which reached epidemic levels in 1919. She was a reassurance to many people confined to the area with no means of transport.</p> <p>In the early 1950s the boundary fence was constructed by relief road workers.</p> |
| 48 | new | Gateway to the Stirlings | Salt River Road            | <p>Significance</p> <p>The Gateway to the Stirlings is a landmark in Cranbrook that is aesthetically pleasing and represents the community efforts to further develop the tourism potential of the region for to the community and visitors to the area.</p> <p>History</p> <p>The West Australian government introduced bus tours to the Stirlings during the wildflower season. The Bushmans Bazaar Committee, later the Cranbrook Toursit Promotion Committee, provided morning and afternoon teas amid wildflower displays for the bus tours. In 1975, the National Park Board formed the Stirling Range National Park and in 1979 the gateway was erected by the Cranbrook Apex Club who also built the lookout at Sukeys Hill. In 1966 a repeater mast was constructed to improve reception and the conversion of electricity from direct to alternating through the Kleemann company.</p>           |

There was a debate between Haynesdale and Frankland, but with the 3 trustees from Frankland, the locals built the hall in Frankland. The hall has a number of additions over time but still fulfills a social function for the town and district. It was the first, and the last remaining original hall in the Shire of Cranbrook.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| <b>77</b> | 609 | Gordon River Hall/school            | Shamrock Road                | <p>Significance</p> <p>The Gordon River School/hall has considerable historical and social significance for its associations with the local families and education of their children, the community events and initiatives and commitment to their history and community.</p> <p>History</p> <p>The Gordon River Hall was built as a result of community pressure from the residents of the district.</p> <p>In 1921, settlers Baker, Cuss, Pope, Palmer and Weller applied for a school at Gordon River. Until that time school had taken place at Pope's house. The school was held in the hall after it opened in 1922. Funds were collected for materials, and the hall was built by PH Walter, assisted by local settlers.</p> <p>In 1924, the wedding of Jean Pope and Fred Palmer took place in the newly constructed hall.</p> <p>The hall was a school until 1942 and the centre for many social gatherings such as weddings, dances and New Year's Day parties.</p> <p>By the 1970s the Gordon River Hall had fallen into disrepair. The community recognised the need for major restoration work that they undertook, and the hall was re-opened in 1988.</p> <p>The Gordon River Hall is situated in a clearing surrounded by natural bush. The hall is constructed from timber weatherboard with a gabled corrugated iron roof.</p> |

|           |       |                                                                |  | <p>Built by Andrew Walton in 1862, Wonnenup is one of the earliest homesteads in the district. It is very significant in that it was convict built. It can also be linked to over 100 years of occupation by the Walton family who were very early graziers in the district. Andrew Walton himself was a ticket-of-leave man who worked as a shepherd for John Hassell in the 1850's. He later took up his own lease of 10,000 acres at Wonnenup (originally part of Hassell's leasehold) where he built the house and outbuildings. It is unclear when Walton left the property, but it reverted to the Government, and the roof was replaced in 1906. Later the house was deserted until Albert Weller purchased the house and forty acres. In 1908 he took up 1000 acres alongside the house. There were 12 acres cleared round the house, surrounded by a slab fence. The sheep were locked up every night to keep them away from dingoes.</p> <p>Situated beside the Gordon River, this very early homestead was built by convicts in 1862. The house and sheds were located on forty acres of free hold land. The house was built of bricks made on the property, and timber felled with a broadaxe and sawn over saw pits in the nearby forest. The roof was made of white gum shingles. This was later covered with corrugated iron in 1906. Nearby outbuildings comprise stables (horse/milking cows), a 6-stand timber and corrugated iron shearing shed, and remnants of the hay shed.</p> |

| <b>94</b> | 16733 | Sukey Hill Lookout                                             |  | <p>The West Australian government introduced bus tours to the Stirlings during the wildflower season. The Bushmans Bazaar Committee, later the Cranbrook Toursit Promotion Committee, provided morning and afternoon teas amid wildflower displays for the bus tours. In 1975, the National Park Board formed the Stirling Range National Park and in 1979 the gateway was erected by the Cranbrook Apex Club who also built the lookout at Sukeys Hill. In 1966 a repeater mast was constructed to improve reception and the conversion of electricity from direct to alternating through the Kleemann company.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|     |       |                              |                         | and son-in-law John Gillam took over, and Gillam was granted a license in 1886 and named the Travellers Rest Inn. It was a popular stopping place for those travelling on the Albany-Perth Road. At the Inn they could get food, reactivation took place in the inn in 1904.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 100 | 3242  | Tenterden Agricultural Hall  | Gillam & Trimmer Steets | <p><b>REGISTER OF HERITAGE PLACES 1999</b></p> <p>The Tenterden Community Hall has an important part in the history of rural Australia. Community halls were a valued social focus in rural communities, and the Tenterden Hall was used for a variety of purposes by a wide range of community groups. Religious services, dances, concerts, parties, games nights, badminton, table tennis, Christmas Tree functions, and Guy Fawkes nights are some of the activities which took place there. Music for dances was provided by the piano purchased by the Ladies Committee and the Repertory Club was established c.1946. The hall was also used for meetings of the Progress Association and as a drill room by the Defence Department prior to World War One. It was used for fundraising for the war effort and for a "Welcome Home" event after World War Two.</p> <p>Tenterden Hall was destroyed by fire on 28 December 2003. It was entered on the Register of Heritage Places and still is. A new community hall serves the community.</p> |
| 101 | new   | Tenterden Cemetery           | Lunt Road               | <p><b>Significance</b></p> <p>Tenterden Cemetery, originally Cranbrook Region Cemetery, represents a significant record of pioneers and generations of residents of the Tenterden and Cranbrook town and district.</p> <p>The Cemetery evokes a sense of place, of commemoration. The memorials, palisades and railings evidence a range of designs and emotive inscriptions.</p> <p><b>History</b></p> <p>In 1912, five acres were cleared and fenced by a working bee for the Tenterden Cemetery.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 102 | 15701 | Tenterden War Memorial       | Lunt Road               | <p><b>Significance</b></p> <p>The War Memorial is of considerable historical and social significance to the community in commemoration of those who served in world wars and other conflicts. The memorial also has aesthetic significance, set in the garden setting that is cared for by the community.</p> <p>The memorial is a revered site where significant remembrance events take place. It is highly valued by the local community, many of whom are related to those who are commemorated.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 104 | 613   | St Mildred's Anglican Church | Trimmer Street          | <p><b>Significance</b></p> <p>St Mildred's Anglican Church is historically, socially and spiritually significant in representing the resilience of community effort and the pastoral services in the Tenterden community.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|            |     |                                                 |             | <p>History</p> <p>St Mildred's Anglican Church was consecrated in May 1927. Prior to that time monthly services were held at Tenterden; first in the school and then in the Tenterden Agricultural Institute. After 1910, when Rev H G Barnacle was appointed to conduct the monthly service, efforts were made to start a building fund.</p> <p>Anglican church services took place in Cranbrook, Tenterden, Frankland River and Kybellup. The First World War intervened, so all funding went to support the Red Cross and the war effort. In the 1920s, after a succession of clergymen, a building committee was appointed, consisting of the Rector Edward Wornum, L S Perkins and W Tufnell. A suitable block of land was obtained, and a quarry was opened. Stone was quarried and carted to the site by voluntary labour. In 1926 plans were drawn up by Mr F Coote and the tender was awarded to Mr AE Rodgers. The foundation stone was laid by H J Townsend in December 1926. The inscription reads;</p> <p style="text-align: center;">TO THE GLORY OF GOD<br/>and in memory of those men who fell in the Great War 1914-18<br/>This stone was placed here by<br/>H J Townsend J P<br/>Dec 22nd 1926</p> <p>St Mildred's Church was named after St Mildred's Church in Kent, England. A piece of stone from the mother church was sent out and built into the wall of the new church and a Bible was presented by Dr Rory McLaren, a Church Warden of the Kent church. Years later, in 1959, Dr McLaren visited Tenterden and St Mildred's, renewing the connection between the two churches.</p> <p>The clergymen in charge of St Mildred's (and St Oswald's in Cranbrook) lived at Mt Barker until 1955. In that year a rectory was built at Cranbrook.</p> |

| 117 | 6503 | Yeriminup Homestead          | Yeriminup Road                                                                                  | <p><b>Significance</b></p> <p>Yeriminup Homestead is of considerable historic significance for the association with the Egerton-Warburton family's early settlement and ongoing development and contribution to the community since the 1840s.</p> <p><b>History</b></p> <p>GE Egerton Warburton took up land in Yeriminup in the 1840s, with a grant in 1857. His son Horrace, took up land</p> <p>Yeriminup was one of the first properties in the area to be settled in the 1840s. It is linked to a well-known settler family of the district, G E Egerton Warburton.</p> <p>Constructed around 1857 when they got a grant.</p> <p>Yeriminup was built of clay bricks. The ceilings were cut with a broad axe and the roof was shingle. Of the original building, three rooms remain. The roof was shingle, and was later covered with corrugated iron</p>                                         |
| 118 | 6502 | Yeriminup Sheep Wash         | Yeriminup Road (north of)<br>(east side of the south section<br>of the lake)<br>Hay Location 31 | <p><b>Significance</b></p> <p>Yeriminup sheep wash is of historic significance for the association with the Egerton-Warburton family and their farming enterprise.</p> <p><b>History</b></p> <p>When sheep were shepherded in the bush, wool became dusty with charcoal owing to the bush being burnt off to give new growth for grazing. To remove the charcoal and dirt before shearing, the sheep were driven through sheep washes created in rivers or pools. This is the sheep wash for Yeriminup, the homestead of the pioneering Egerton Warburton family. It was also used by neighbouring landowners. There are other examples of these in the district such as Washpool on the Frankland Road near the Boyup Road turnoff.</p> <p>The sheep wash was created by driving wooden posts into the river pool to form a raceway. The sheep to be washed were then driven through the raceway.</p> |
| 119 | 6501 | Yeriminup Reserve & Cemetery | Yeriminup Road on the east<br>corner of Haynesdale Road                                         | <p><b>Significance</b></p> <p>Yeriminup Reserve &amp; Cemetery represents a significant record of pioneers of Yeriminup.</p> <p>The Cemetery evokes a sense of place, of commemoration. The memorials, palisades and railings evidence a range of designs and emotive inscriptions.</p> <p><b>History</b></p> <p>Yeriminup Reserve &amp; Cemetery was part of an Aboriginal Reserve that was an important stopping place for the Bibbulmun tribe. It is now an A Class Reserve, vested in the Shire of Cranbrook for the purposes of a Public Cemetery. The area where the Cemetery was once</p>                                                                                                                                                                                                                                                                                                       |

Graves of different kinds. Some have headstones and surrounding rocks.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 120 | new | Dwangup- Aboriginal burial ground | Yeriminup Road on the east corner of Haynesdale Road | <p><b>Significance</b></p> <p>Dwangup Aboriginal Burial Ground is of considerable Aboriginal cultural significance (Registered site) as a traditional burial and meeting place for several groups in the Noongar nation and has historical heritage significance as the site of a military post. It also represents a significant record of the Bibbulmun tribe.</p> <p><b>History</b></p> <p>Known to the Noongar community as Dwangup, this significant cultural site is where tribal boundaries meet for three different groups of the Noongar nation; the <i>Menang</i> (Albany area), <i>Goreng</i> (Stirling Ranges area) and <i>Kaneang</i> (west of Cranbrook and Kojonup area). It was an important meeting place with a permanent water source. From 1836 to 1839 a military outpost was established adjacent to the reserve due to perceived tribal fighting. The local Elders explained that it is an important law ground, to those who had broken the Noongar laws.</p> <p>The Aboriginal Reserve that was an important stopping place for the Bibbulmun tribe</p> <p>The reserve has been traditionally used as a burial ground as evidenced by 41 burial mounds, scar trees and remnants of typical grave elements such as spears, boomerangs, woomeras and stone implements.</p> <p>Dwangup Burial Ground is integral to the Shire of Cranbrook's Nature Reserve and included on the Cranbrook Conservation Trail.</p> <p>The area of the Aboriginal burial ground is a sacred site of Aboriginal Cultural Heritage significance. It is across the gully from the public Cemetery.</p> |

## 7.0 CATEGORY 3 & 4 PLACES

### 7.1 Category 3

A place (including a site with no built remains) of some /moderate cultural heritage significance to Shire of Cranbrook.

No constraints.

**Recommend:** Encourage retention of the place, or where there are ruins, archaeological findings or no built remains: Interpret the place.

#### IMPLICATIONS:

If a planning application is submitted to the Shire of Cranbrook for approval, if approved a condition of development will require documentation and a photographic record of the place prior to any development or if retention is not possible.

There are **no statutory requirements** pertaining to heritage issues.

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding, although at a lower priority. It is funded loosely on a \$ for \$ basis, although 'in-kind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding and may also be funded on same basis as works funding assistance.

## 7.2 Category 4

A place (including a site with no built remains) of little cultural heritage significance to Shire of Cranbrook.

No constraints.

**Recommend:** Encourage retention of the place, or where there are ruins, archaeological findings or no built remains: Interpret the place.

### IMPLICATIONS:

If a planning application is submitted to the Shire of Cranbrook for approval, if approved a condition of development will require documentation and a photographic record of the place prior to any development or if retention is not possible.

There are **no statutory requirements** pertaining to heritage issues.

Private owners do not qualify for any funding.

Local Government, churches and community (not-for-profit) owners qualify for Lotterywest conservation funding, although at a lower priority. It is funded loosely on a \$ for \$ basis, although 'in kind' contributions are encouraged. Benefit to the community is a significant factor in assessment for funding. A Conservation Management Plan or Conservation Management Strategy is usually a pre-requisite for conservation works funding and may also be funded on same basis as works funding assistance.

## 8.0 CONCLUSION

The 2026 draft Local Heritage Survey reiterates the considerable significance of the rich heritage and history of Cranbrook's towns and districts and will provide strategic guidance to conserve those places of assessed as having a high level of cultural significance.
