KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data outside the adopted materiality threshold.

▲ Indicates a variance with a positive impact on the financial position.

▼ Indicates a variance with a negative impact on the financial position.

Refer to Note 3 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying notes.

SHIRE OF CRANBROOK
STATEMENT OF FINANCIAL POSITION
FOR THE PERIOD ENDED 31 OCTOBER 2026

	Actual 30 June 2026	Actual as at 31 October 2026
	$	$
CURRENT ASSETS		
Cash and cash equivalents	6,653,665	8,015,669
Trade and other receivables	430,015	1,292,458
Other financial assets	7,000	7,000
Inventories	67,291	75,386
Other assets	50,947	0
TOTAL CURRENT ASSETS	7,208,918	9,390,513
NON-CURRENT ASSETS		
Trade and other receivables	30,032	37,008
Other financial assets	142,383	142,383

TOTAL EQUITY	**236,529,563**	**238,827,803**

This statement is to be read in conjunction with the accompanying notes.

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements
Section 6.4(2) of the Local Government Act 1995 read with the *Local Government (Financial Management) Regulations 1996,* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied with exception to the following:

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 07 September 2026

The local government reporting entity
All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

Material accounting policies
Material accounting policies utilised in the preparation of these statements are as described within the 2026-27 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements
The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:
- Fair value measurement of assets carried at reportable value including:
  - Property, plant and equipment
  - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits
- Measurement of provisions

2 NET CURRENT ASSETS INFORMATION

(a) Net current assets used in the Statement of Financial Activity

	Note	Adopted Budget Opening 1 July 2026	Actual as at 30 June 2026	Actual as at 31 October 2026
Current assets		$	$	$
Cash and cash equivalents		6,653,666	6,653,665	8,015,669
Trade and other receivables		472,280	430,015	1,292,458
Other financial assets		7,000	7,000	7,000
Inventories		67,291	67,291	75,386
Other assets		50,947	50,947	0
		7,251,184	7,208,918	9,390,513
Less: current liabilities				
Trade and other payables		(344,005)	(301,626)	(482,196)
Other liabilities		(152,077)	(152,077)	(589,102)
Employee related provisions		(421,946)	(421,946)	(421,946)
		(918,028)	(875,649)	(1,493,244)
Net current assets		6,333,156	6,333,269	7,897,269
Less: Total adjustments to net current assets	2(b)	(3,683,956)	(3,683,956)	(3,691,228)
Closing funding surplus / (deficit)		**2,649,200**	**2,649,313**	**4,206,041**

(b) Current assets and liabilities excluded from budgeted deficiency

Adjustments to net current assets				
Less: Reserve accounts		(3,813,674)	(3,813,674)	(3,821,242)
Less: Current assets not expected to be received at end of year				
- Financial assets at amortised cost - self supporting loans		(7,000)	(7,000)	(7,000)
Add: Current liabilities covered by funds held in reserve account				
- Current portion of employee benefit provisions		136,718	136,718	137,014
Total adjustments to net current assets	2(a)	**(3,683,956)**	**(3,683,956)**	**(3,691,228)**

(c) Amounts excluded from operating activities

	Adopted Budget Estimates 30 June 2027	YTD Budget Estimates 31 October 2026	YTD Actual 31 October 2026
	$	$	$
Less: Profit on asset disposals	(9,000)	0	0
Add: Loss on disposal of assets	4,843	0	0
Add: Depreciation	7,245,934	2,415,311	0
Movement in current liabilities associated funds held in reserve account:			
- Employee benefit provisions		296	296
Non-cash movements in non-current assets and liabilities:			
- Pensioner deferred rates		(6,976)	(6,976)
Total amounts excluded from operating activities	**7,241,777**	**2,408,631**	**(6,680)**

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

3 EXPLANATION OF MATERIAL VARIANCES

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or revenue varies from the year to date actual materially.
The material variance adopted by Council for the 2026-27 year is $10,000 and 10.00% whichever is the greater.

Description	Var. $	Var. %	
	$	%	
Revenue from operating activities			
Rates excluding general rates This variance is due to ex gratia rates received being $15k more than budgeted. This is calculated using the CBH tonnage and rate increase % added onto previous years charge rate.	**15,367**	**13.34%** Timing	▲
Fees and charges This variance captures a reduced amount of income received from our Fees and Charges, particularly in our Private Works income and the Ground Lease for 19 King Street. Being Fees and Charges, this will fluctuate month to month.	**(53,565)**	**(17.62%)** Timing	▼
Interest revenue Due to timing of interest earned vs budget phasing. This is impacted by the maturity dates on our investments which fluctuate over the year depending on how we invest to get the best return.	**(30,957)**	**(44.54%)** Timing	▼
Other revenue This includes the proceeds from the sale of CB05 and CB08.	**73,884**	**407.82%**	▲
Expenditure from operating activities			
Utility charges Due to timing of Utility Payments not aligning with budget phasing	**21,390**	**35.36%** Timing	▲
Depreciation Depreciation will be run after final audit completed.	**2,415,311**	**100.00%** Timing	▲
Insurance Due to timing of Insurance Payments against the budget phasing	**91,020**	**34.30%** Timing	▲
Other expenditure Variance is due to Elected Members allowances being paid later than budgeted for. This has now been paid and will clear in November financials	**33,371**	**83.72%** Timing	▲
Amounts excluded from operating activities See Depreciation	**(2,415,311)**	**(100.28%)** Timing	▼
Inflows from investing activities			
Proceeds from capital grants, subsidies and contributions Due to timing of capital roads claims not aligning with the budget phasing. This will fluctuate monthly as the projects progress and Liabilities are unwound	**(436,525)**	**(69.39%)** Timing	▼
Outflows from investing activities			
Acquisition of property, plant and equipment This is a variance within our plant replacement program, showing the year-to-date difference between budgeted and actual spending. This will fluctuate over the year. Currently, we are 2-3 months ahead with our vehicle changeovers.	**174,502**	**42.48%** Timing	▲
Acquisition of infrastructure This variance represents a $490 underspend between budgeted and actual year-to-date expenditure for out capital roads projects. The figure also accounts for increased spending within the 'Other Infrastructure' category, which includes DWER Water Tank expenses. This is a variance between the Year to Date budget and **Actual** expenditure and will also fluctuate over the months.	**487,815**	**49.84%** Timing	▲

		4,194,427	**3,821,242**	**8,015,669**	**0**			

KEY INFORMATION
Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:
- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under $5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5).* These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2).* Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2),* the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

GST receivable						60,148
Receivables for employee related provisions						29,886
Total receivables general outstanding						**222,283**

Amounts shown above include GST (where applicable)

KEY INFORMATION

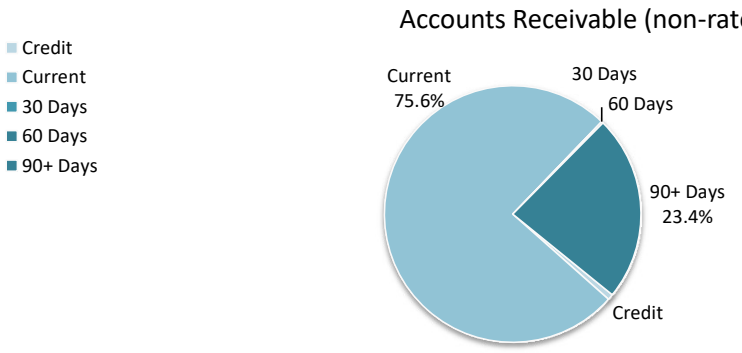

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

8 OTHER CURRENT ASSETS

Other current assets	Opening Balance 1 July 2026	Asset Increase	Asset Reduction	Closing Balance 31 October 202

Total other current assets	**125,238**	**8,095**	**(50,947)**	**82,386**

Amounts shown above include GST (where applicable)

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:
- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

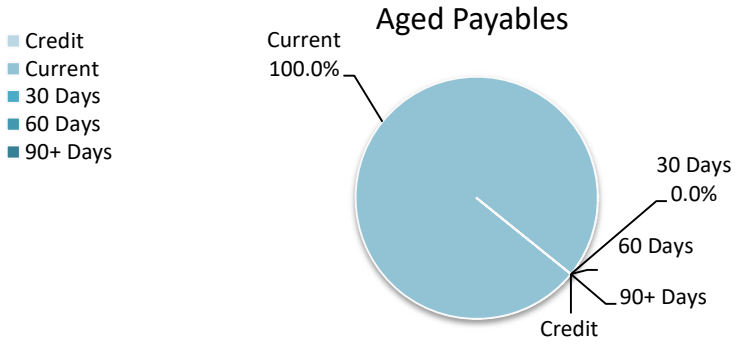

Inventories are measured at the lower of cost and net realisable value.
Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

9 PAYABLES

Payables - general	Credit	Current	30 Days	60 Days	90+ Days	Total
	$	$	$	$	$	$
Payables - general	0	367,760	0	0	0	367,760

Balance per trial balance						
Sundry creditors						367,760
ATO liabilities						77,413
Pre-paid Rates						20,527
Other payables						16,496
Total payables general outstanding						**482,196**
Amounts shown above include GST (where applicable)						

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

10 OTHER CURRENT LIABILITIES

Other current liabilities	Note	Opening Balance 1 July 2026	Liability transferred from/(to) non current	Liability Increase	Liability Reduction	Closing Balance 31 October 2026

Amounts shown above include GST (where applicable)

A breakdown of contract liabilities and associated movements is provided on the following pages at Note 12

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.
Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.
The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.
